Product Description

High Sound Insulation Movable Partition Wall For Multi-Function Hall

Product Introduction

Movable partition is a movable wall with general wall functions that can divide large space into small space or connect small space into large space at any time according to needs. It can play a role of multiple functions in one hall or one room. The acoustic movable walls brings great convenience to people's work. For example, you can fold it on one side when you need it, so that the two spaces are temporarily joined to make them appear larger, which is convenient for temporary departmental meetings.

Optional access door can be installed on the panel to allow access to adjacent rooms

A variety of panel stacking schemes are available for flexible collocation

Different levels of noise reduction materials can be selected to achieve the best sound insulation effect, the top and bottom of the vinyl sea. A wide range of finishes are available

Product Application

Meeting rooms and multi-purpose halls: When meetings or events of different sizes need to be held, movable partitions can flexibly divide the space to meet different needs.

Exhibition and display space: At exhibitions, movable partitions can be used to divide different display areas for easy management and visiting.

Restaurants and cafes: movable partitions can be used to separate or merge areas to meet the dining needs of different numbers of people.

Offices: In open offices, movable partitions can provide privacy partitions or be used to divide the work areas of different departments.

Educational institutions: In classrooms or training rooms, movable partitions can be used to separate spaces for group discussions or course arrangements.

Medical places: In hospitals or clinics, movable partitions can be used to protect patient privacy and divide different treatment areas.

Entertainment and fitness places: In places such as gyms and dance studios, movable partitions can provide the necessary privacy and space division.

Hotels and guest rooms: movable partitions can be used in hotel rooms to provide greater space flexibility to meet the needs of different guests.

Banquet and wedding venues: When holding large banquets or weddings, movable partitions can help divide different functional areas, such as reception areas, banquet areas, etc.
