Product Description

Products Description

Timber slat wall panels is a perfect combination of polyester fiber acoustic panel MDF wood slat. We use high density polyester fiber acoustic panel as base, the finish of the timber slat can be customized accordingly to your requirement.

Timber slat wall panels focus the sound absorption spectrum in the mid range frequencies while maintaining some of the higher frequencies. It has good sound absorption effect, effectively improves the indoor reverberation time, and effectively improves the clarity and fullness of the environment's clear speech.

Material Wood finish, Fireproof finish and Melamine finish

Size 400 MM, 520 MM AND 600 MM
