

## 16/16/8 Pattern Veneer Sound Proof MDF Acoustic Wood Panel for Wall Decoration

### Our Product Introduction

#### Basic Information

- Place of Origin: Guangdong, China
- Brand Name: MQ Acoustic
- Certification: CE, ASTM, ISO
- Model Number: Perforated Acoustic Panel
- Minimum Order Quantity: 100 square meters
- Price: \$7.99/square meters  $\geq 100$  square meters
- Packaging Details: Carton Box, Pallet
- Supply Ability: 5000 Square Meter/Square Meters per Month

#### Product Specification

- Warranty: 5 Years
- After-sale Service: Online Technical Support, Return And Replacement, Other
- Project Solution Capability: Total Solution For Projects, Others
- Application: Sports Venues
- Design Style: Modern
- Model NO.: Perforated Acoustic Panel
- Color: Customized
- Core Material: Normal MDF, E1 MDF, Fr MDF, MGO, Solid Wood
- Pattern: 32/32/8(6), 16/16/8(6), 8-8-1 Or Customized
- Installation Accessories: Steel Keel
- Transport Package: Carton Box, Pallet
- Trademark: MQ Acoustics
- HS Code: 4411142900
- Thickness: 10mm/15mm/18mm

## Products Description

Our perforated acoustic panels are crafted from premium MDF (Medium-Density Fiberboard) and feature an elegant perforated design, offering exceptional sound absorption performance while adding a unique decorative touch to your space. Whether for home theaters, offices, meeting rooms, music studios, or commercial venues, these acoustic panels effectively improve acoustic environments and enhance the overall aesthetic of any space.

### Key Features

**Premium MDF Material:** Made from eco-friendly MDF with uniform density and stable structure, ensuring durability and long-lasting performance without deformation.

**Excellent Sound Absorption:** Scientifically designed perforations effectively absorb mid-to-high-frequency noise, reducing echoes and reverberation for a clear and comfortable acoustic environment.

**Aesthetic Appeal:** The minimalist and stylish perforated design complements various interior styles, elevating the visual appeal of any space.

**Eco-Friendly & Healthy:** Complies with environmental standards, free from formaldehyde, and safe for use in homes and commercial spaces.

**Easy Installation:** Lightweight design and flexible installation options, suitable for wall or ceiling mounting to meet diverse application needs.

**Customizable Options:** Available in various sizes, colors, and perforation patterns to meet personalized requirements.

### Applications

Home theaters, living rooms, bedrooms

Offices, conference rooms, auditoriums

Music studios, recording studios, theaters

Restaurants, hotels, shopping malls, and other commercial space

# Product Details

We focus on detail improvement

## High Density Base Material

Special selection of high quality MDF panel. The wood fiber is uniform and meticulous makes the panel durable with high strength.

## Smooth Surface

The self-improved veneer laminating technology makes the veneer and the substrate better laminating, the surface is smooth and beautiful, not easy to crack and deformation, and the service life is long

## Black Acoustic Felt

High quality black acoustic felt on the back side of the panel makes the acoustic performance better and prevent the padding coming out from the panel.

## Precise Cutting Process

The surface and the edge of the panel is clean by standardized proudction. The installation groove is accurate when install with the steel keel system.

# Product Features

## 1/ Variety Of Finishes

## 2/ Aesthetic Appearance

## 3/ Eco-friendly&Fire Resistant

## 4/ Sound Absorption And Noise Reduction

# Applications

- 1 Professional recording space: recording studios, broadcast studios, rehearsal rooms, etc.
- 2 Large-scale music space: theaters, concert halls, KTV rooms, etc.
- 3 Office space: office buildings, meeting rooms, hotels, etc.

# CERTIFICATION

MAGIC CUBE Acoustics has focused on the R&D, production and sales of various sound absorption and sound insulation products. Our products have passed CE, ISO9001 & SGS certificate. MAGIC CUBE has more than a dozen patented acoustic technology products, and more than 30 domestic and international test reports.

## FAQ

### 1. Can I get free samples and how long does it take to produce samples?

If the samples you need are in our stock, they will be provided to you free of charge. Customized samples usually take about a week to produce.

### 2. Do you accept OEM or ODM order?

Yes, as a manufacturer, we can produce acoustic materials based on your samples or drawings. Please do not hesitate to contact us.

### 3. How to get an accurate quotation?

Can provide us with detailed product information, such as pattern, core material, surface, etc. If you have CAD or other drawings,

don't hesitate to send it to us.

### 4. Payment terms

T/T 30% deposit before production, 70% balanced payment before delivery.

For more information, please feel free to contact us.
