

Square Shape Environment-Friendly Fiberglass Acoustic Ceiling for Wall Top Performance

Our Product Introduction

for more products please visit us on acousticpanelwalls.com

Basic Information

- Place of Origin: China
- Minimum Order Quantity: 100 square meters
- Price: \$29.99/square meters 100-199 square meters
- Packaging Details: Bag
- Supply Ability: 5000 Square Meter/Square Meters per Month

Product Specification

- Warranty: More Than 5 Years
- After-sale Service: Online Technical Support, Return And Replacement, Other
- Project Solution Capability: Others
- Application: Home Office, Office Building
- Design Style: Modern
- Function: Sound-Absorbing, Soundproof, Soundproof
- Ceiling Tile Shape: Square
- Ceiling Tile Type: Fiberglass Ceilings
- Feature: Environment Friendly
- Color: Customer Require
- Raw Materials: High Density Fiberglass Wool
- Surface Finished: Customized Color
- Material: Fiber Glass
- Type: Ceiling Tile

Specification

Material	Glass wool
Function	Sound-Absorbing, Soundproof
Ceiling Tile Type	Fiberglass Ceilings
Thickness	15MM/20MM/30MM/40MM/50MM or Customization
Color	Customer Require

If you need customized size / color/ pattern, please contact customer service.

Product Description

Product information

Main Material	Glass wool
Size	595x595, 600x600, 603x603, 600x1200mm or Customized
Thickness	15mm, 20mm, 30mm, 40mm, 50mm or Customized
Finish	Special painted laminated with decorative fiberglass tissue
Color	White or other colors as demanded
Density	Fiberglass wool 64-120KG/m ³ , special density can be supplied
Shape	Square, circle, rectangle, hexagon, support customization
Edge	Square, Tegular, Insert
Eco-Friendly	Class E1
Flame retardant	China Standard Class A

Project

Product Details

Excellent material

Glass fiber High pressure forming, positive and negative Covered with glass fiber felt

Anti subsidence

The material is composed of broken glass and good dimension, which is closely arranged and has a cow face structure. B makes it possible to record water accidentally after installation, and the original size remains unchanged after drying

Waterproof and moisture-proof

After special treatment, the base material can be waterproof and moisture-proof, and can be durable in humid environment.

No dust

The four sides of the panel layer are sealed and will not produce dust, which can effectively prevent the adsorption of dust in the air, keep the panel clean for a long time, and play a significant role in the cleanliness of the indoor environment

FOCUS ON ENVIRONMENTAL HEALTH PHENOLIC RESIN FREE

Fiberglass ceiling is a board made of glass fiber as the main raw material. It does not contain phenolic resin and other harmful substances to the environment. It is healthy, environment-friendly and safe to use
