

Square Edge Noise Barrier for Construction Safety on Amazon 2022 Noise Suppression

Our Product Introduction

Basic Information

- Place of Origin: Guangdong, China
- Brand Name: MQ Acoustics
- Certification: ASTM
- Model Number: Noise Barrier
- Minimum Order Quantity: 100 square meters
- Price: \$29.99/square meters 100-199 square meters
- Packaging Details: Bag
- Supply Ability: 5000 Square Meter/Square Meters per Month

Product Specification

- Warranty: 5 Years
- After-sale Service: Online Technical Support, Return And Replacement, Other
- Project Solution Capability: Total Solution For Projects, Others
- Application: Outdoor, Large Area Such As Gymnasium
- Design Style: Contemporary
- Type: Noise Barrier
- Model NO.: Noise Barrier
- Edge: Square
- Color: Customized
- Core Material: Polyester Wool, Mass Load Vinyl
- Stc: 17-27dB
- Transport Package: Bag
- Trademark: MQ Acoustics
- HS Code: 940690009

Product Description

Products Description

Size	2400*1000 MM (Customization is available)
Thickness	15-18 MM
Color	Green, Grey, Black, Blue
STC	17-27 DB

Acoustic barrier adopts a flexible design and can be hung on the steel frame and wall through hardware accessories, effectively increasing the sound insulation performance. The sound barrier is composited with materials with different acoustic characteristics such as waterproof B1 flame-retardant high-quality PVC, sound-absorbing cotton, and sound insulation felt, so as to achieve a higher comprehensive sound insulation structure. The laboratory measured air sound insulation $R_w=27\text{dB}$.

Sample Available, Welcome your inquiry and contact !

Specifications

- 1 Finish Materials:PVC Tarpaulin & Fabric
- 2 Inner Materials:Acoustic cotton & Sound insulation felt
- 3 Size:2400*1000mm (customization is available)
- 4 Standard Thickness:15 -18 mm
- 5 Color:Green, Grey, Black, Blue
- 6 Weight:7kgs/m²
- 7 Fabric Design: Rhombus, Vertical Line, Square
- 8 Absorption Coefficient : 17-27dB

Product Features

Portable acoustic barrier is designed with high-adhesive velcro around it and the joints are seamlessly connected, effectively blocking noise, dust and light pollution. The use of sound barriers with steel frames is suitable for large-area paving, and is generally used in temporary buildings or high-noise places where frequent disassembly and assembly are required.

About Us

Magic Cube (MQ) Acoustics is a professional acous-

tic solution provider, integrating acoustic material manufacturing, architectural acoustical environment construction and industrial noise control. We are committed to the combination of Acoustics & Aesthetic, to offering our clients the best acoustic solution with high quality acoustic material.

In order to meet the higher needs of customers, we has introduced advanced production equipment which has fully guaranteed product quality and technology. After 5 years of rapid development, we has an annual output of more than 500,000 square meters of

CERTIFICATION

MAGIC CUBE Acoustics has focused on the R&D, production and sales of various sound absorption and sound insulation products. Our products have passed CE, ISO9001 & SGS certificate. MAGIC CUBE has more than a dozen patented acoustic technology products, and more than 30 domestic and international test reports.

FAQ

1. Can I get free samples and how long does it take to produce samples?

If the samples you need are in our stock, they will be provided to you free of charge. Customized samples usually take about a week to produce.

2. Do you accept OEM or ODM order?

Yes, as a manufacturer, we can produce acoustic materials based on your samples or drawings. Please do not hesitate to contact us.

3. How to get an accurate quotation?

Can provide us with detailed product information, such as pattern, core material, surface, etc. If you have CAD or other drawings, don't hesitate to send it to us.

4. Payment terms

T/T 30% deposit before production, 70% balanced payment before delivery.

For more information, please feel free to contact us.
