

Villa Music Recording Studio Equipment Wooden Grooved Wall Panels

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: MQ Acoustics
- Model Number: grooved acoustic panel
- Minimum Order Quantity: 100 square meters
- Price: \$10.99/square meters 100-199 square meters
- Packaging Details: Carton Box, Pallet
- Supply Ability: 5000 Square Meter/Square Meters per Month

Product Specification

- Model NO.: Grooved Acoustic Panel
- Size: 2440*132mm/2440*197mm
- Finish: Melamine, HPL, Wood Veneer
- Pattern: 28-4, 14-2, 13-3, 6-2 Or Customized
- Application: Villa
- Design Style: Contemporary
- Edge: Tongue And Groove
- Color: Customized
- Project Solution Capability: Total Solution For Projects, Others
- Core Material: Normal MDF, E1 MDF, Fr MDF, MGO, Solid Wood
- After-sale Service: Online Technical Support, Return And Replacement, Other
- Installation Accessories: Keel And Clips
- Keel And Clips: Carton Box, Pallet
- MOQ: 100 square meters

Products Description

Basic Material	E1 MDF, FR MDF, Black MDF
Front Finish	Melamine, Veneer, Paint, HPL
Back Finish	Black Felt
Size	2440x132mm, 2440x197mm
Thickness	12/15/18 mm
Formaldehyde Emission	Can meet both China&EU Standard Class E1
Flame Retardant	Can meet China Standard Class B, BS476 Part 7 Class1, EN13501 Class B etc.
Pattern	124/4, 60/4, 13/3, 14/2, 28/4, 6/2 (Customization is available)

Wooden grooved acoustic panel is one kind of sound-absorbing panels with grooves on the surface and holes on the back. The panel is used for sound absorption and acoustic arrangement. It solves sound problems such as echo.

Wooden grooved acoustic panel provides the acoustic arrangement and allows the sound quality to be maximized. The edge of the wooden grooved acoustic panel with groove and tongue can be easily installed with clips or stapling to the wood battens.

Benefits:

Enhanced Acoustic Comfort: Creates a quieter, more serene environment by blocking unwanted noise.

Improved Aesthetics: Adds a sophisticated and modern look to any interior space.

Durability: Built to last with high-quality materials that withstand wear and tear.

Customization: Tailored to meet specific design and functional requirements.

Health and Well-being: Reduces stress and enhances focus by minimizing noise distractions.

Applications:

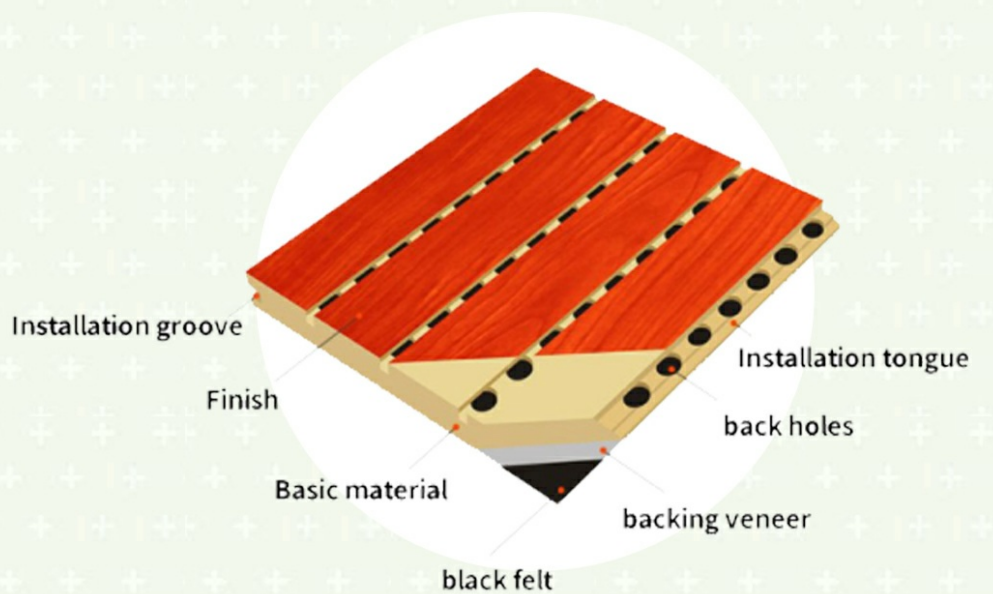

Residential: Living rooms, bedrooms, home theaters, and kitchens.

Commercial: Offices, conference rooms, restaurants, and hotels.

Entertainment: Recording studios, cinemas, and performance halls.

Educational: Classrooms, lecture halls, and libraries.

Product Structure

Surface and Colors

- ① Melamine/ HPL: Pure colors and wooden grain are both available.
- ② Veneer: Normally the veneer is divided into natural veneer and technical veneer and the varnish can be UV or PU painting.
- ③ Paint: Colors can be customized according to Pantone or RAL color number. But there will be slight color difference in each batch.

COLORS

Pure Colors

Wood Grain

Product Details

We focus on detail improvement

High Density Base Material

Special selection of high quality MDF panel. The wood fiber is uniform and meticulous makes the panel durable with high strength.

Smooth Surface

The self-improved veneer laminating technology makes the veneer and the substrate better laminating, the surface is smooth and beautiful, not easy to crack and deformation, and the service life is long

Black Acoustic Felt

High quality black acoustic felt on the back side of the panel makes the acoustic performance better and prevent the padding coming out from the panel.

Precise Cutting Process

The surface and the edge of the panel is clean by standardized prouduction. The tongue and groove is accurated when installtion.

Product Features

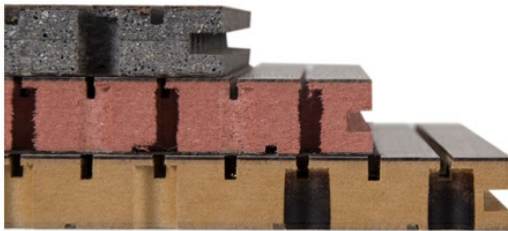

1/ Variety Of Finishes

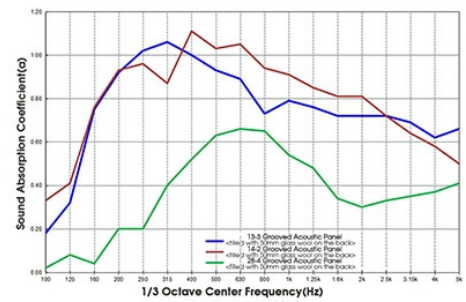

2/ Aesthetic Appearance

3/ Eco-friendly&Fire Resistant

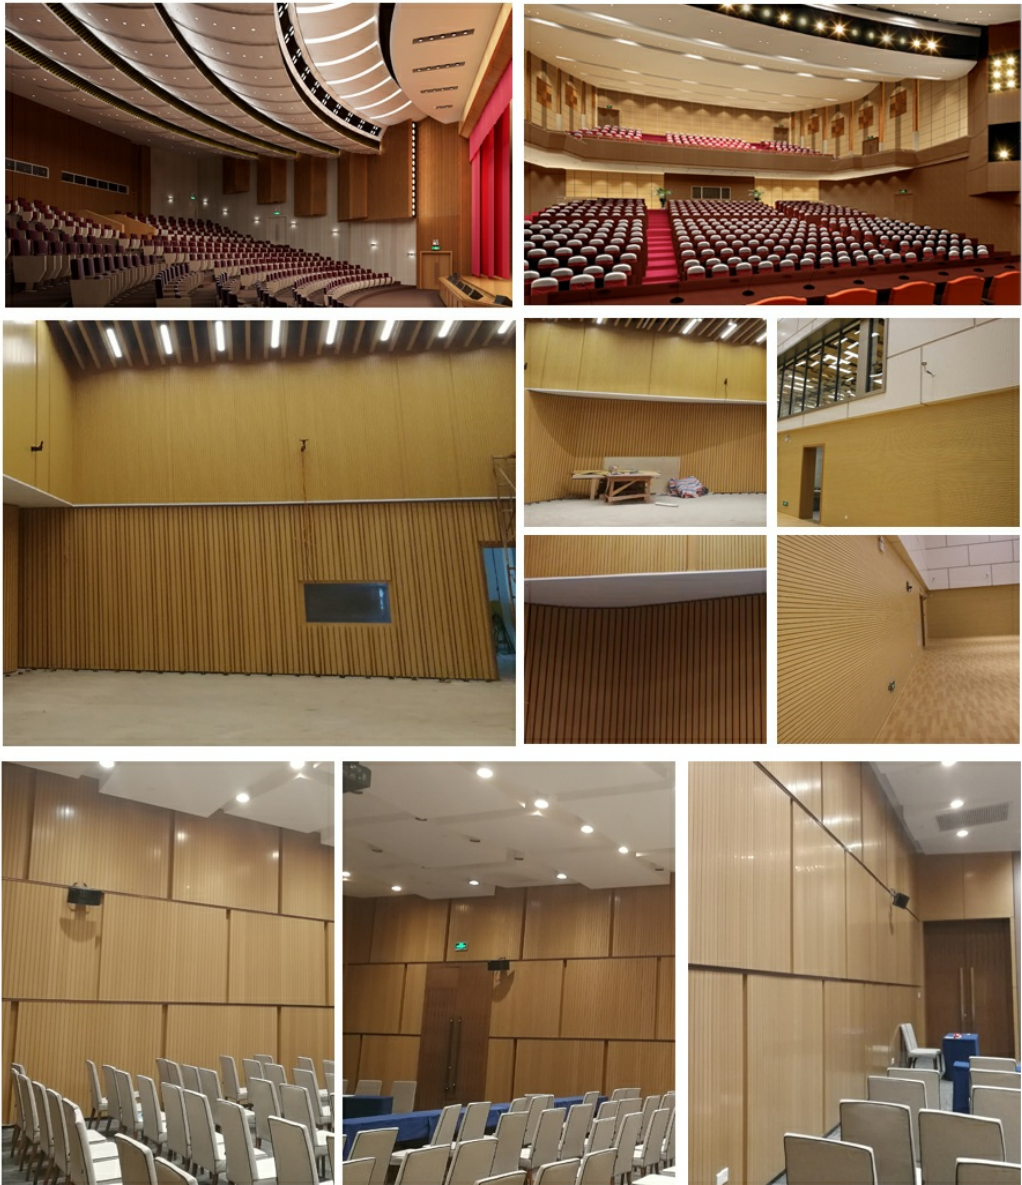

4/ Sound Absorption And Noise Reduction

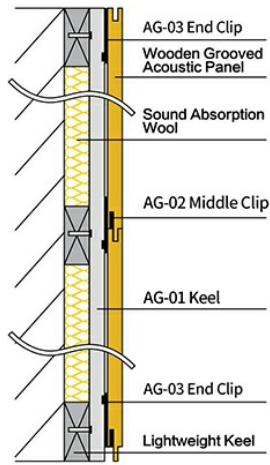

Applications

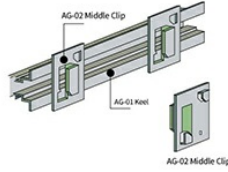

- ① Professional recording space: recording studios, broadcast studios, rehearsal rooms, etc.
- ② Large-scale music space: theaters, concert halls, KTV rooms, etc.
- ③ Office space: office buildings, meeting rooms, hotels, etc.

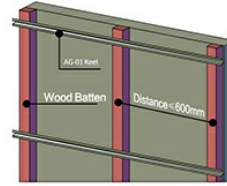

Installation Guidance

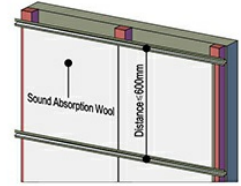

Cross-Section Structure

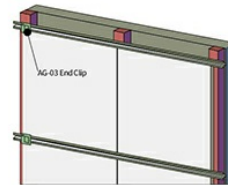

1. INSTALLATION ACCESSORIES

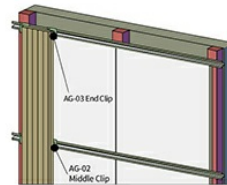

2. FIX AG-01 KEEL ON WOODEN BATTENS

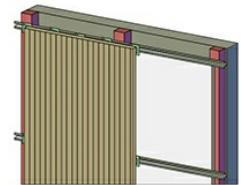

3. USE SOUND ABSORPTION WOOL AS PADDING

4. FIX AG-02 AND AG-03 CLIPS IN A LINE

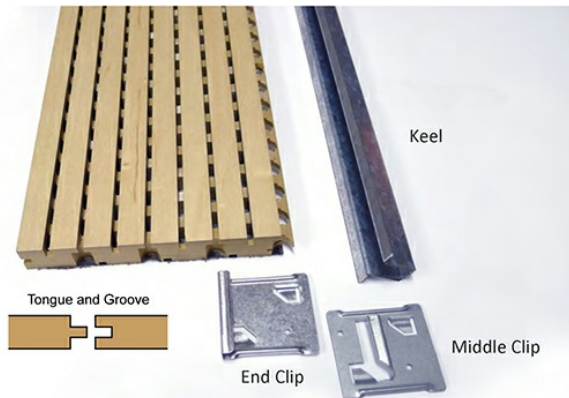

5. START TO INSTALL PANELS

6. INSTALL ANOTHER LINE OF PANELS

INSTALLATION: LIGHTWEIGHT STEEL KEEL SYSTEM

CERTIFICATION

MAGIC CUBE Acoustics has focused on the R&D, production and sales of various sound absorption and sound insulation products. Our products have passed CE, ISO9001 & SGS certificate. MAGIC CUBE has more than a dozen patented acoustic technology products, and more than 30 domestic and international test reports.
