

Fireproof Aluminium Movable Partition Wall Leather Surface With Safe Material

Our Product Introduction

for more products please visit us on acousticpanelwalls.com

Basic Information

- Place of Origin: Guangdong, China
- Brand Name: MQ Acoustics
- Model Number: Movable Partitions
- Minimum Order Quantity: 50 square meters
- Packaging Details: Movable Wall Carton Paper Packaging.
- Payment Terms: T/T
- Supply Ability: 5000 Square Meter/Square Meters per Month

Product Specification

- Model NO.: Movable Partitions
- Dimensions: W700-1200mm, H2000-5200mm
- Thickness: 80-110mm
- Surface: MDF Board, Fabric, Leather, PET
- General Use: Commercial Furniture
- Type: Office Furniture, Melamine MDF Panel, Fireproof PVC Board, Fabric(Le
- Application: Home Office, Hotel, Office Building, Mall, Workshop, Other, Hall, Gym, Office, Hotel Banquet Hall, Etc.
- Design Style: Modern
- Density: 35~45kg/M2
- Transport Package: Wooden Box
- Trademark: MQ Acoustics
- HS Code: 76101000
- Material: Aluminium

Products Description

A movable partition is a versatile wall system that combines the functionality of traditional walls with enhanced flexibility. It enables the dynamic division of large spaces into smaller sections or the combination of smaller areas into larger ones, adapting to changing needs. This innovative solution can serve multiple purposes within a single room or hall. Acoustic movable walls, in particular, offer significant convenience for various work scenarios. For instance, they can be folded to one side when necessary, temporarily merging two spaces to create a larger area. This feature is especially useful for impromptu departmental meetings or events, providing a practical and efficient way to optimize space utilization.

Applications:

Offices: Create private meeting rooms or divide open-plan spaces.

Hotels: Separate banquet halls or conference areas.

Residential: Divide large rooms into smaller, functional spaces.

Healthcare: Use in clinics or hospitals for temporary partitions.

Details Images

Product Features

- 1/ No ground rail suspension**
there is no track on the floor, only need to install the track on the ceiling.

- 2/ Sound insulation and environmental protection**
good sound insulation performance, the maximum sound insulation coefficient can reach 53dB.

- 3/ High-efficiency fire protection**
It is made of high-efficiency fire-retardant materials with good fire-proof performance.

- 4/ Convenient storage**
when collecting the partition, it can be hidden in the special storage cabinet, which does not affect the overall appearance.

OPERABLE PARTITIONS TYPES

Omni-Directional Panels

Omni-directional panels provide the ultimate flexibility to your operations because each individual panel can easily turn around corners and move to alternate locations or remote storage. Therefore, many different storage layouts can be created to fit your floor design and layout.

Storage Layout Options

* Type 11 steel track only

Paired Panels

When remote storage is not required, the center-hung panels hinged in groups of two or three, are the ideal solution for quicker and easier set up, than omni-direction panels. Optional hinging is available to accommodate moldings or other decorations. Acoustical ratings are the same as omni-direction Panels.

Storage Layout Options

Continuously Hinged Panels

Continuously hinged panels are hinged together and move from wall to wall in a straight line. Electrically operated for fast, easy set-up.

PRODUCT FEATURES

Steel Frame

The frame is made of 2mm welded heavy-duty galvanized steel. It provides the frame with high rigidity & durability.

Free 5-year warranty on welded steel frame

New Sweep Seals

Four-finger sweep seals are installed at panel's top and bottom, which increase the contact point by 50%, when comparing to the past product series. It provides optimum seal contact to keep out sound effectively.

Improved Trim System

Trimmed and trimless designs provide options for reinforced and replaceable face panels, catering different design proposals.

Reinforced face panel

Replaceable face panel

Newly Invented Bullnose

The single design bullnose replaces the traditional male and female-sided bullnose. Equipped with vertical compressive seals, it improves the depth of interlocking, and prevents sound leaks effectively.

Aluminum Track Systems

Omni-Directional Panels

Dual wheel trolleys that negotiate 90° turns, through X, L, and T intersections. Two carriers are provided per panel. Each carrier has two horizontal counter-rotating wheels that roll (not slide) in the track. Each wheel has precision-ground bearings, encased with Delrin™ for quiet operation. Carriers easily negotiate square or angled corners without switches.

TYPE 36

Weights up to 1000lbs (455kg) per panel

TYPE 57

Weights up to 1500lbs (680kg) per panel

About Us

Magic Cube (MQ) Acoustics is a professional acoustic solution provider, integrating acoustic material manufacturing, architectural acoustical environment construction and industrial noise control. We are committed to the combination of Acoustics & Aesthetic, to offering our clients the best acoustic solution with high quality acoustic material.

In order to meet the higher needs of customers, we has introduced advanced production equipment which has fully guaranteed product quality and technology. After 5 years of rapid development, we has an annual output of more than 500,000 square meters of

FAQ

1. Can I get free samples and how long does it take to produce samples?

If the samples you need are in our stock, they will be provided to you free of charge. Customized samples usually take about a week to produce.

2. Do you accept OEM or ODM order?

Yes, as a manufacturer, we can produce acoustic materials based on your samples or drawings. Please do not hesitate to contact us.

3. How to get an accurate quotation?

Can provide us with detailed product information, such as pattern, core material, surface, etc. If you have CAD or other drawings,

don't hesitate to send it to us.

4. Payment terms

T/T 30% deposit before production, 70% balanced payment before delivery.

For more information, please feel free to contact us.
