

Exhibition Hall Modern fold Operable Partition 30kg/M2 And Easy Installation

Our Product Introduction

Basic Information

- Place of Origin: Guangdong, China
- Brand Name: MQ Acoustics
- Model Number: Movable Partitions
- Minimum Order Quantity: 100 square meters
- Price: \$89.99/square meters >=100 square meters
- Packaging Details: Movable Wall Carton Paper Packaging.
- Supply Ability: 5000 Square Meter/Square Meters per Month

Product Specification

- General Use: Commercial Furniture
- Type: Office Furniture, Melamine MDF Panel, Fireproof PVC Board, Fabric(Le
- Application: Home Office, Hotel, Office Building, Mall, Workshop, Other, Hall, Gym, Office, Hotel Banquet Hall, Etc.
- Design Style: Modern
- Model NO.: Movable Partitions
- Surface: MDF Board, Fabric, Leather
- Density: 28~32kg/M2
- Dimensions: W700-1200mm, H2000-5200mm, Thickness 80-110mm
- Transport Package: Movable Wall Carton Paper Packaging.
- Trademark: MQ Acoustics
- HS Code: 76101000
- Material: Metal

Product Description

Products Description

In the dynamic environment of exhibition halls, flexibility and functionality are key. The Operable Partition is a state-of-the-art solution designed to meet the needs of modern exhibition spaces. With a lightweight yet robust design (30kg/m²) and effortless installation, this partition system offers unparalleled versatility, allowing you to easily reconfigure your space to suit different events and layouts.

Key Features

Easy Installation and Operation

Designed for convenience, this partition system is quick and easy to install. Its user-friendly operation allows for smooth opening, closing, and repositioning, making it ideal for spaces that require frequent reconfiguration.

Superior Sound Insulation

The partition provides excellent sound insulation, ensuring that noise from adjacent areas does not disrupt ongoing events. This feature is particularly valuable in exhibition halls, where multiple activities may take place simultaneously.

Space Optimization

The Modern fold Operable Partition allows you to divide large spaces into smaller, functional areas without the need for permanent walls. This flexibility maximizes the utility of your exhibition hall, enabling you to host multiple events or exhibitions at the same time.

Sleek and Modern Aesthetics

With its contemporary design, the partition adds a touch of sophistication to any exhibition hall. It is available in a variety of finishes and colors to complement your existing decor.

Customizable Sizes and Configurations

The partition can be customized to fit the specific dimensions and layout of your exhibition hall. Whether you need a single partition or a multi-panel system, the Modern fold Operable Partition can be tailored to meet your requirements.

Applications

Exhibition halls and convention centers
Conference rooms and event spaces
Hotels and banquet halls
Educational institutions and auditoriums
Offices and coworking spaces

Details Images

Product Features

- 1/ No ground rail suspension**
there is no track on the floor, only need to install the track on the ceiling.

- 2/ Sound insulation and environmental protection**
good sound insulation performance, the maximum sound insulation coefficient can reach 53dB.

- 3/ High-efficiency fire protection**
It is made of high-efficiency fire-retardant materials with good fire-proof performance.

- 4/ Convenient storage**
when collecting the partition, it can be hidden in the special storage cabinet, which does not affect the overall appearance.

OPERABLE PARTITIONS TYPES

Omni-Directional Panels

Omni-directional panels provide the ultimate flexibility to your operations because each individual panel can easily turn around corners and move to alternate locations or remote storage. Therefore, many different storage layouts can be created to fit your floor design and layout.

Storage Layout Options

* Type 11 steel track only

Paired Panels

When remote storage is not required, the center-hung panels hinged in groups of two or three, are the ideal solution for quicker and easier set up, than omni-direction panels. Optional hinging is available to accommodate moldings or other decorations. Acoustical ratings are the same as omni-direction Panels.

Storage Layout Options

Continuously Hinged Panels

Continuously hinged panels are hinged together and move from wall to wall in a straight line. Electrically operated for fast, easy set-up.

TRACK SYSTEM

A high quality track system ensures that partitions will operate smoothly for years to come and assist in the quick set-up and storage of panels. All tracks have been rigorously tested for a minimum of 100 miles (approx 14 years) of usage cycle time. Job requirements vary, which is why we offer a wide selection of tracks to meet your operating requirements.
