

Fabric Surface Acoustic Folding Partition 80mm Thickness For Office

Our Product Introduction

Basic Information

- Place of Origin: Guangdong, China
- Brand Name: MQ Acoustics
- Model Number: Movable Partitions
- Minimum Order Quantity: 100 square meters
- Price: \$89.99/square meters >=100 square meters
- Packaging Details: Movable Wall Carton Paper Packaging.
- Supply Ability: 5000 Square Meter/Square Meters per Month

Product Specification

- General Use: Commercial Furniture
- Type: Office Furniture, Melamine MDF Panel, Fireproof PVC Board, Fabric(Le
- Mail Packing: N
- Application: Home Office, Hotel, Office Building, Mall, Workshop, Other, Hall, Gym, Office, Hotel Banquet Hall, Etc.
- Design Style: Modern
- Model NO.: Movable Partitions
- Surface: MDF Board, Fabric, Leather
- Density: 28~32kg/M2
- Dimensions: W700-1200mm, H2000-5200mm, Thickness 80-110mm
- Transport Package: Movable Wall Carton Paper Packaging.
- Trademark: MQ Acoustics
- HS Code: 76101000

Product Description

Products Description

Movable partition is a movable wall with general wall functions that can divide large space into small space or connect small space into large space at any time according to needs. It can play a role of multiple functions in one hall or one room. The acoustic movable walls brings great convenience to people's work. For example, you can fold it on one side when you need it, so that the two spaces are temporarily joined to make them appear larger, which is convenient for temporary departmental meetings.

Details Images

Product Features

- 1/ No ground rail suspension**
there is no track on the floor, only need to install the track on the ceiling.

- 2/ Sound insulation and environmental protection**
good sound insulation performance, the maximum sound insulation coefficient can reach 53dB.

- 3/ High-efficiency fire protection**
It is made of high-efficiency fire-retardant materials with good fire-proof performance.

- 4/ Convenient storage**
when collecting the partition, it can be hidden in the special storage cabinet, which does not affect the overall appearance.

OPERABLE PARTITIONS TYPES

Omni-Directional Panels

Omni-directional panels provide the ultimate flexibility to your operations because each individual panel can easily turn around corners and move to alternate locations or remote storage. Therefore, many different storage layouts can be created to fit your floor design and layout.

Storage Layout Options

* Type 11 steel track only

Paired Panels

When remote storage is not required, the center-hung panels hinged in groups of two or three, are the ideal solution for quicker and easier set up, than omni-direction panels. Optional hinging is available to accommodate moldings or other decorations. Acoustical ratings are the same as omni-direction Panels.

Storage Layout Options

Continuously Hinged Panels

Continuously hinged panels are hinged together and move from wall to wall in a straight line. Electrically operated for fast, easy set-up.

Aluminum Track Systems

Omni-Directional Panels

Dual wheel trolleys that negotiate 90° turns, through X, L, and T intersections. Two carriers are provided per panel. Each carrier has two horizontal counter-rotating wheels that roll (not slide) in the track. Each wheel has precision-ground bearings, encased with Delrin™ for quiet operation. Carriers easily negotiate square or angled corners without switches.

TYPE 36

Weights up to 1000lbs (455kg) per panel

TYPE 57

Weights up to 1500lbs (680kg) per panel

TRACK SYSTEM

A high quality track system ensures that partitions will operate smoothly for years to come and assist in the quick set-up and storage of panels. All tracks have been rigorously tested for a minimum of 100 miles (approx 14 years) of usage cycle time. Job requirements vary, which is why we offer a wide selection of tracks to meet your operating requirements.
