

Customized E1 Grade Flame Retardant Material Akupanel Acoustic Panels for Decoration

Our Product Introduction

Basic Information

- Place of Origin: Guangdong, China
- Brand Name: MQ
- Minimum Order Quantity: 100 pieces
- Price: \$21.99/pieces 100-499 pieces
- Packaging Details: Pallet and carton box
- Supply Ability: 5000 Piece/Pieces per Month

Product Specification

- Warranty: 1 Year
- After-sale Service: Online Technical Support, Other
- Project Solution Capability: 3D Model Design, Others
- Application: School, Office Building
- Design Style: Modern
- Product Name: Wooden Slat Acoustic Panel
- Acoustic Panel Type: Wood Absorbing Panel
- Surface: Wood Texture
- Size: 2400*600*21mm
- Material: MDF+Polyester Fiber
- Feature: Sound-absorbing Effect
- Description: Decoration Akupanel Acoustic Panel
- Finish: Painted
- Advantage: Decorative Effect
- Port: GUANGZHOU

Specifications

Something From Nothing 100% ♻️
Our acoustical felt backing is made from 100% recycled materials.

Making Modern Style ||||
Combine classic design with the modernity of clean lines and minimalism.

Acoustic Design ||||
when the sound waves hit the panels the waves are absorbed in the felt and it eliminated the reverberation.

Introduction of Materials

Polyester board - substrate - veneer

Acoustical felt

The felt is made from recycle plastic (bottles)
The felt absorbs the sound waves and dampens the sound.

Surface

Wood from sustainable forestry
All the wood we use comes from sustainable forestry, which ensures that the forest can reproduce more trees than what is being cut.

Slats

The core of the acoustics panel consists of a medium density fibreboard and is available in black or a natural colour. The slats create diffusion, which essentially means that they break the sound waves and thereby dampen the sound.

Class A Sound Absorption

Tired of your home sounding like an echo chamber?

Each Slat Acoustics Panel absorbs up to **100% of sound frequencies between 500-1000Hz**, making your space sound naturally warm and welcoming.

About Installation

FULLY CUSTOMIZABLE

Make it Yours From headboards, to TV walls, and anything in between, you can easily cut Willow Panels by hand to perfectly suit your project.

Application Place

Multiple application space

Primarily used in commercial spaces, our acoustic panels provide excellent sound reduction. Due to their warm soft aesthetics, more and more private clients are choosing them for their own residences.

About the Company

Magic Cube(MQ)Acoustics is a professional acoustic solution provider, integrating acoustic material manufacturing, architectural acoustical environment construction and industrial noise control. We are committed to the combination of Acoustics&Aesthetic, to offering our clients the best acoustic solution with high quality acoustic material.

The exhibition hall

In order to meet the higher needs of customers, we have introduced advanced production equipment which has fully guaranteed product quality and technology. After 5 years of rapid development, we have an annual output of more than 500,000 square meters of various acoustic materials.

Certification

MAGIC CUBE Acoustics has focused on the R&D, production and sales of various sound absorption and sound insulation products. Our products have passed CE, ISO9001 & SGS certificate. MAGIC CUBE has more than a dozen patented acoustic technology products, and more than 30 domestic and international test reports.

Team Activity

Exhibition

The panels are also designed to improve the overall sound environment of your home. They effectively absorb reverberation, which can make a room feel echo-y and uncomfortable. This means that you'll enjoy a more peaceful and comfortable home environment, making it a perfect place to relax and unwind after a long day.

The Akupanel panels are also made of eco-friendly materials, making them a great option for those who are environmentally conscious. They are also easy to install and maintain, which makes them a great option if you are looking to your space without a lot of hassle.

FAQ

What do I need for installation?

For installation, you will need a drill and any appropriate fastening hardware. For example, if you're mounting into drywall (rather than studs), you'll want to purchase drywall anchors with the appropriate screws. Please note screws are not included with the panel.

Can I cut the panels?

Yes, absolutely. The panels are easy to cut using a handsaw or a circular saw. Simply measure twice and cut once!

Can I hang a TV from the panels?

We don't recommend hanging a TV directly from the panels, instead cut out a gap for the TV mount and mount it to your wall as you regularly would. From there, you can install the panels around the mount before hanging your TV from the mount.

How do I wash the panels?

The best way to wash the slats is with a well-wrung cloth or duster. If you ever want to clean the felt between the slats, simply use a vacuum.
