Product Description

Products Description

Acoustic wall panels in natural oak.
The acoustic panel can be used to create beautiful slat walls that give a modern look to the space. The panel is soundproof and eliminates echo, which dramatically improves the acoustics in the room.

Materials

MATERIAL ANALYSIS

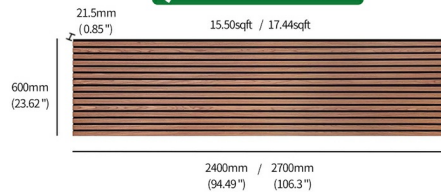

Acoustic wall panels are made of durable materials that are resistant to wear and damage. Here are some commonly used materials for acoustic panels and their durability: MDF panels are made from finely chopped wood fibers that are compressed with glue and covered with foil. Below are some

Specifications

Why Choose Us

Here are some reasons to choose our acoustic wall panels:

1. **Quality:** Our acoustic wall panels are made from high-quality materials and have been tested for their effectiveness in improving acoustics.
2. **Durable:** Our wall panels are made of durable materials and can last for years without requiring replacement, making them a sustainable choice for improving the acoustics of any space.
3. **Easy installation:** Our wall panels are easy to install and require no special tools or skills.
4. **Various designs:** Our wall panels are available in different styles and colors, so you can customize them to your specific interior needs.
5. **Good value for money:** Our wall panels are available at a reasonable price and offer excellent quality for the money.

FAQ

What do I need for installation?

For installation, you will need a drill and any appropriate fastening hardware. For example, if you're mounting into drywall (rather than studs), you'll want to purchase drywall anchors with the appropriate screws. Please note screws are not included with the panel.

Can I cut the panels?

Yes, absolutely. The panels are easy to cut using a handsaw or a circular saw. Simply measure twice and cut once!

Can I hang a TV from the panels?

We don't recommend hanging a TV directly from the panels, instead cut out a gap for the TV mount and mount it to your wall as you regularly would. From there, you can install the panels around the mount before hanging your TV from the mount.

How do I wash the panels?

The best way to wash the slats is with a well-wrung cloth or duster. If you ever want to clean the felt between the slats, simply use a vacuum.
