Product Description

If you need customized size / color/ pattern, please contact customer service.

Products Description

Timber slat wall panels is a perfect combination of polyester fiber acoustic panel MDF wood slat. We use high density polyester fiber acoustic panel as base, the finish of the timber slat can be customized accordingly to your requirement.

Timber slat wall panels focus the sound absorption spectrum in the mid range frequencies while maintaining some of the higher frequencies. It has good sound absorption effect, effectively improves the indoor reverberation time, and effectively improves the clarity and fullness of the environment's clear speech.
