Finish	Melamine/Veneer/Painting
Material	MDF + Polyester Fiber
Pattern	MDF 27mm, Edge to edge 13mm/customized
Function	Sound absorption, Interior decoration
NRC	0.85~0.94, SGS Test for polyester panel

Class A Sound Absorption

Tired of your home sounding like an echo chamber?

Each Slat Acoustics Panel absorbs up to **100% of sound frequencies between 500-1000Hz**, making your space sound naturally warm and welcoming.

Multiple application space

Primarily used in commercial spaces, our acoustic panels provide excellent sound reduction. Due to their warm soft aesthetics, more and more private clients are choosing them for their own residences.

Wooden Slat Acoustic Panel is made from veneered lamellas on a bottom of a specially developed acoustic felt created from recycled material. The handcrafted panels are not only designed to fit in with the latest trends but are also easy to install on your wall or ceiling. They help to create an environment that is not only quiet but beautifully contemporary, soothing and relaxing.

why we love this product:

1 Look

It simply looks great and can transform a room. Great as a feature wall to add interest in domestic and commercial environments.

2 Feel

Order a sample to feel for yourself but there is a lovely texture to the face of the slats of this product because of a unique veneer pressing process.

3 Installation Ease

Simply offer the panel to the wall and use black fixings which are barely visible through the black PET backing.

4 Value

Combining a sound absorbing PET backing and timber slats; there are few products in the market that offer this kind of aesthetic versus the material cost.

5 Quality

This is the original, high quality product manufactured in China.

Installation

About Installation

FULLY CUSTOMIZABLE

Make it Yours From headboards, to TV walls, and anything in between, you can easily cut Willow Panels by hand to perfectly suit your project.

FAQ

What do I need for installation?

For installation, you will need a drill and any appropriate fastening hardware. For example, if you're mounting into drywall (rather than studs), you'll want to purchase drywall anchors with the appropriate screws. Please note screws are not included with the panel.

Can I cut the panels?

Yes, absolutely. The panels are easy to cut using a handsaw or a circular saw. Simply measure twice and cut once!

Can I hang a TV from the panels?

We don't recommend hanging a TV directly from the panels, instead cut out a gap for the TV mount and mount it to your wall as you regularly would. From there, you can install the panels around the mount before hanging your TV from the mount.

How do I wash the panels?

The best way to wash the slats is with a well-wrung cloth or duster. If you ever want to clean the felt between the slats, simply use a vacuum.
