ABOUT US

Magic Cube (MQ) Acoustics is a professional acoustic solution provider, integrating acoustic material manufacturing, architectural acoustical environment construction and industrial noise control. We are committed to the combination of Acoustics & Aesthetic, to offering our clients the best acoustic solution with high quality acoustic material.

In order to meet the higher needs of customers, we has introduced advanced production equipment which has fully guaranteed product quality and technology. After 5 years of rapid development, we has an annual output of more than 500,000 square meters of various acoustic materials.

Product Introduction

Our line of pre-fabricated acoustic wood panels transforms any wall into a stylish statement piece. Crafted from select grades of wood veneer known for their uniformity and appeal, each slatted panel is meticulously cut and treated with oil by skilled artisans. To ensure superior sound absorption, every panel is backed with a sturdy recycled felt material. Our panels are uniform in size at 60cm wide and 240cm long, which corresponds to the typical ceiling height, making them easy to install by simply cutting to size and screwing into place.

Sizes

600*2400mm/2700mm/3000m

Features and Benefits

- Available in a range of timber finishes
- Easy to install with standard methods
- Impact Resistance
- Panels work as an absorber and diffuser
- Low Maintenance
- Lightweight
- Highly durable providing years of excellent performance

Recommended Fixings

Bond your panel direct to the wall with grab adhesive for a permanent fixture. Alternatively, screw your panels onto the wall

using wood screws and raw plugs.
