

Mass Loaded Vinyl Eco-Friendly And Moisture-Proof Material For Soundproofing Solution

Our Product Introduction

Basic Information

- Place of Origin: Guangdong, China
- Brand Name: MQ
- Minimum Order Quantity: 100 square meters
- Price: \$4.99 - \$6.99/square meters
- Packaging Details: Polypropylene(PP) Knitted Bag + Pallet
- Delivery Time: 7-15 days
- Payment Terms: T/T
- Supply Ability: 5000 Square Meter/Square Meters per Month

Product Specification

- Model NO.: Mass Loaded Vinyl
- Specification: 1x5m, 1x10m/roll
- Thickness: 1/2/3/5mm
- MOQ: 200 Square Meter
- Application: Sports Venues
- Design Style: Modern
- Free Sample: Available
- Weight: Depend On The Thickness
- Transport Package: Polypropylene(PP) Knitted Bag + Pallet
- HS Code: 401699909
- Trademark: MQ Acoustics
- Port: GUANGZHOU
- After-sale Service: Online Technical Support, Return And Replacement
- Warranty: 5 Years

Product Description

Products Description

Magic Cube Mass Loaded Vinyl (MLV) is crafted from environmentally friendly and non-hazardous green materials, ensuring it is waterproof, rust-resistant, and mold-resistant. Its superior tensile strength simplifies and accelerates the installation process. Additionally, its high areal density translates to excellent sound-insulating capabilities, effectively dampening the transmission of mid to low-frequency sound waves. This material is versatile and can be used in various configurations, where it enhances the overall sound insulation and acoustic performance by addressing the resonance and jointing issues that can affect individual panels.

Details Images

MATERIAL	PVC+Metal Powder
PATTERN	Black on face, and white on back
FEATURES	Effective and durabel noise absorber and block
APPLICATIONS	Construction site, machinery and work area enclosures
THICKNESS	1mm, 2mm, 3mm, 5mm
SIZE	1000*5000mm
COLOR	Black on face, and white on back
Sound Insulation	27dB
INSTALLATION	Fix on wall and ceiling with nail or screw, each roll should overlap at least 2cm to ensure no gap between them.

Heavier 2lbs MLV,
High sound insulation
STC 34 (Not STC 26)

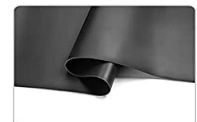

Safe to use

Easy to install

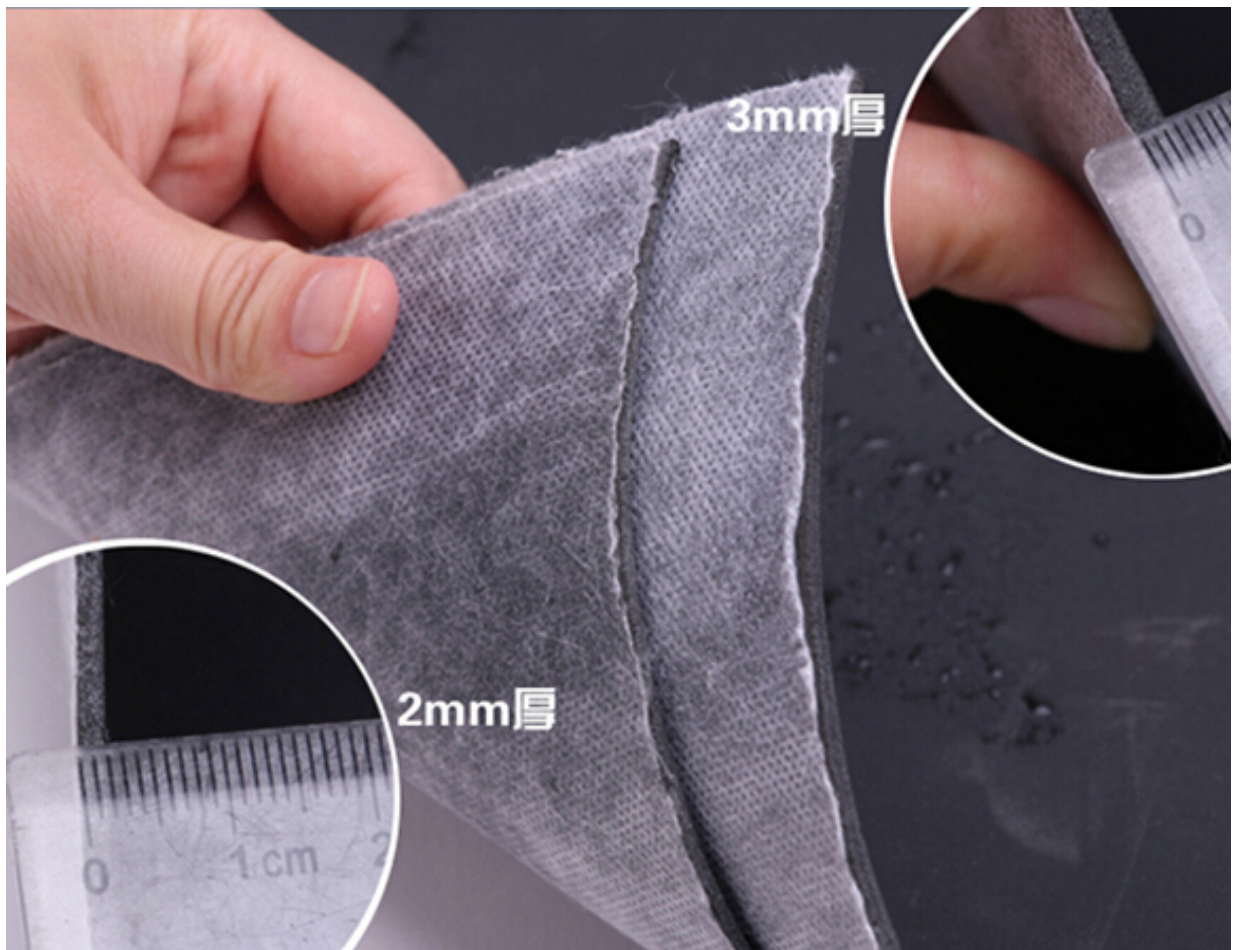

Easy to cut with
standard utility knife

Flexible

Flexible, **Easy to install**
even in small space

Easy to cut with

insulation STC 34 (Not STC 26)

NO
SMELL

No smell

Barium free

1-year warranty

Wall

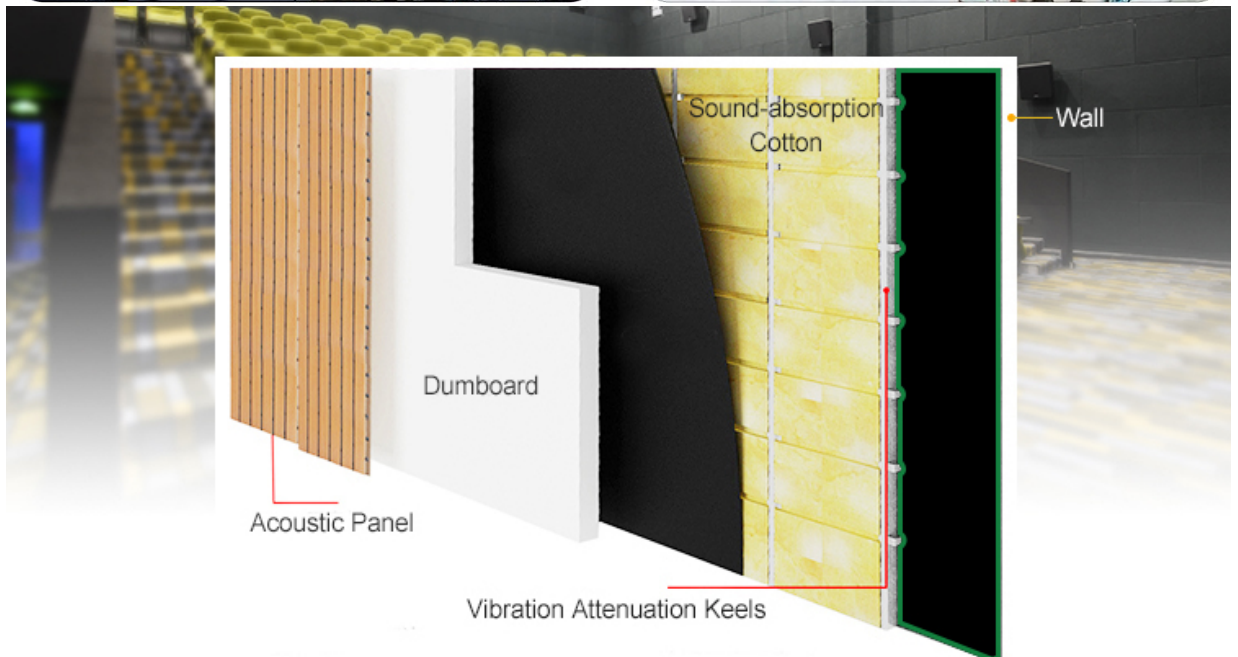

Ceiling

Floor

Shared fence line

FAQ

1. Why choose us?

Over 10 years' Professional manufacturing experiences on rubber and plastic products.

Low MOQ to start small business. It is appreciated to grow up with you for a long time cooperation.

Best factory price with relative quality.

Free sample to check products quality.

Meet buyer's different standards for different uses.

On-time delivery.

2. How does Mass Loaded Vinyl Work?

MLV works by adding mass to a structure, which helps to block sound waves. The density of the material prevents sound from passing through it, effectively reducing noise transmission. It's particularly effective at blocking low-frequency sounds, which are often the most difficult to mitigate.

3. Do you accept OEM/ODM ?

Yes, we can do OEM and ODM with your brands

4. What's your leading time?

For normal samples, it will be sent within 24hours. For customized samples, it usually 3 to 7days.

For normal orders, the production time is about 5 to 25days for a 20ft container.

Pls contact our sales representatives for details.

5. How to get a sample?

Small samples can be provide for free, you only need to cover freight cost, the freight can be deduct from the payment of formal order.

For more information, please feel free to contact us.
