## Product Description

### Products Introduction

"Wood Slat Acoustic Panel" prioritizes environmental friendliness and health, utilizing high-quality wood processed through scientific methods. With a smooth surface and refined texture, its unique wood grain design makes it a superior wall covering option for conference rooms, offices, and other spaces. Additionally, the product boasts excellent sound-absorbing properties, effectively reducing indoor noise and creating a tranquil meeting environment.

### Specification

Material: polyester fiber acoustic panel, MDF

Thickness: 21mm

Size: 600\*2400/2700/3000mm

Color: oak, walnut, teak, black, etc.

Surface Treatment: Waterproof, moisture-resistant, UV-protected, wear-resistant, and easy to clean

### Advantages

**Environmental Health:** Made from premium eco-friendly wood and produced with strict adherence to standards, this product ensures low formaldehyde emissions, creating a green and healthy meeting environment.

**Superior Acoustic Performance:** Acoustic Slat Wood Wall Panel effectively reduces indoor noise, enhancing meeting outcomes.

**Easy to Clean:** The product's surface is treated to be waterproof, moisture-resistant, making it easy to clean and maintain, saving on maintenance costs.

**Aesthetically Pleasing:** The distinctive wood grain design, with its fine texture, adds a natural and elegant atmosphere to the conference room.

**Customization Services:** Sizes and colors can be customized according to customer requirements to meet individual needs.

## Company Profile

---

# About the Company

Magic Cube(MQ)Acoustics is a professional acoustic solution provider, integrating acoustic material manufacturing, architectural acoustical environment construction and industrial noise control. We are committed to the combination of Acoustics&Aesthetic, to offering our clients the best acoustic solution with high quality acoustic material.

The exhibition hall

In order to meet the higher needs of customers, we have introduced advanced production equipment which has fully guaranteed product quality and technology. After 5 years of rapid development, we have an annual output of more than 500,000 square meters of various acoustic materials.

## Team Activity

# Package&Transport

**1. Can I get free samples and how long does it take to produce samples?**

If the samples you need are in our stock, they will be provided to you free of charge. Customized samples usually take about a week to produce.

**2. Do you accept OEM or ODM order?**

Yes, as a manufacturer, we can produce acoustic materials based on your samples or drawings. Please do not hesitate to contact us.

**3. How to get an accurate quotation?**

Can provide us with detailed product information, such as pattern, core material, surface, etc. If you have CAD or other drawings.

**4. Payment terms**

T/T 30% deposit before production, 70% balanced payment before delivery.

**For more information, please feel free to contact us.**
