

Modern Sound Insulation Material Sound Absorbing Wall Panel Wooden Slat Acoustic Wall Panels

Our Product Introduction

Basic Information

- Place of Origin: Guangdong, China
- Brand Name: MQ
- Certification: ASTM E 84/NRC
- Minimum Order Quantity: 20 pieces
- Price: CN¥166.67/pieces 20-99 pieces

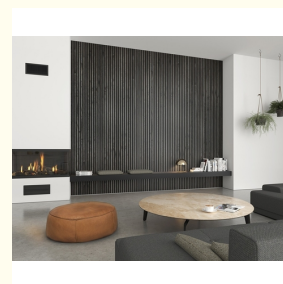

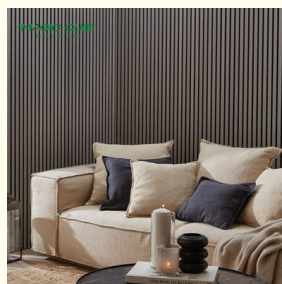

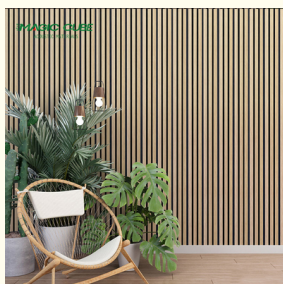

Product Specification

- Warranty: 1 Year
- Material: MDF, 100% Polyester Fiber, MDF+Polyester Fiber
- Feature: Sound Insulation
- After-sale Service: Online Technical Support
- Project Solution Capability: Graphic Design, Total Solution For Projects
- Application: Apartment, Hotel/Apartment/Villa/Hospital/School
- Design Style: Contemporary
- Color: Black/White/Brown
- Thickness: 22mm
- Size: Customized Size
- Advantage: Sound Proof, Noise Reduction
- Style: Simplicity
- Acoustic Panel Type: Wood Absorbing Panel
- MOQ: 20 pieces

Size And Color

we have more other customized size and color

Welcome to consult and customize

Introduction of Materials

Polyester board - substrate - veneer

Acoustical felt

The felt is made from recycle plastic (bottles)
The felt absorbs the sound waves and dampens the sound.

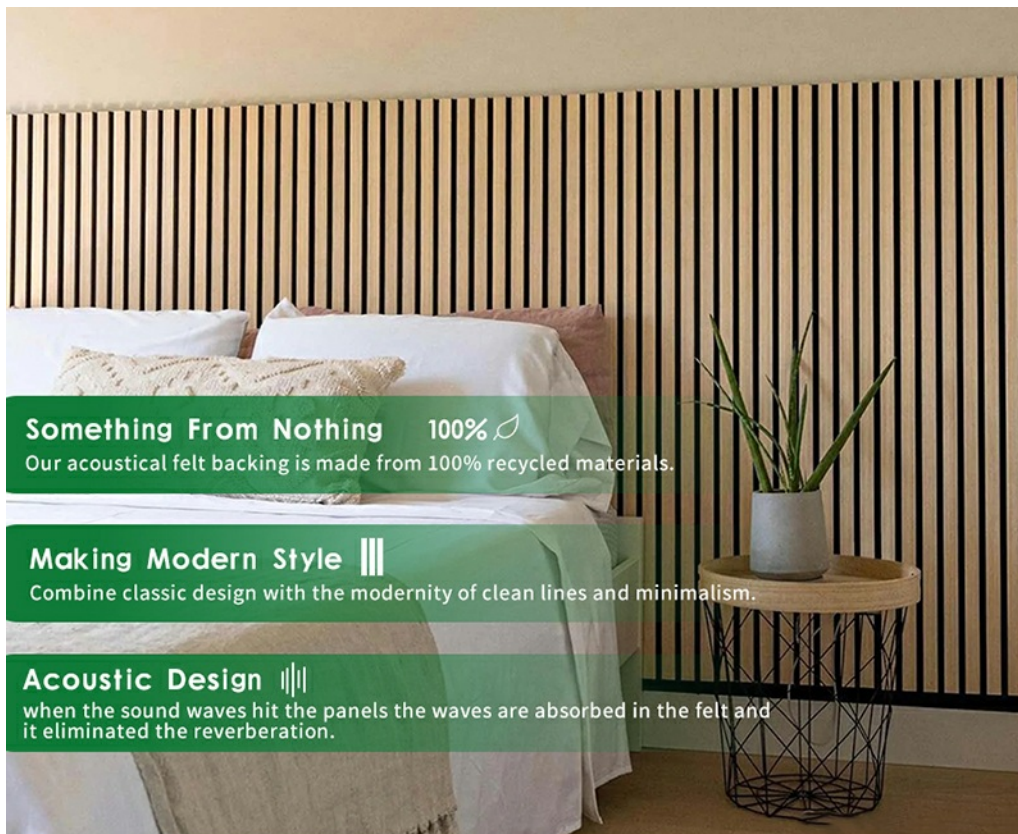

Surface

Wood from sustainable forestry
All the wood we use comes from sustainable forestry, which ensures that the forest can reproduce more trees than what is being cut.

Slats

The core of the acoustics panel consists of a medium density fibreboard and is available in black or a natural colour. The slats create diffusion, which essentially means that they break the sound waves and thereby dampen the sound.

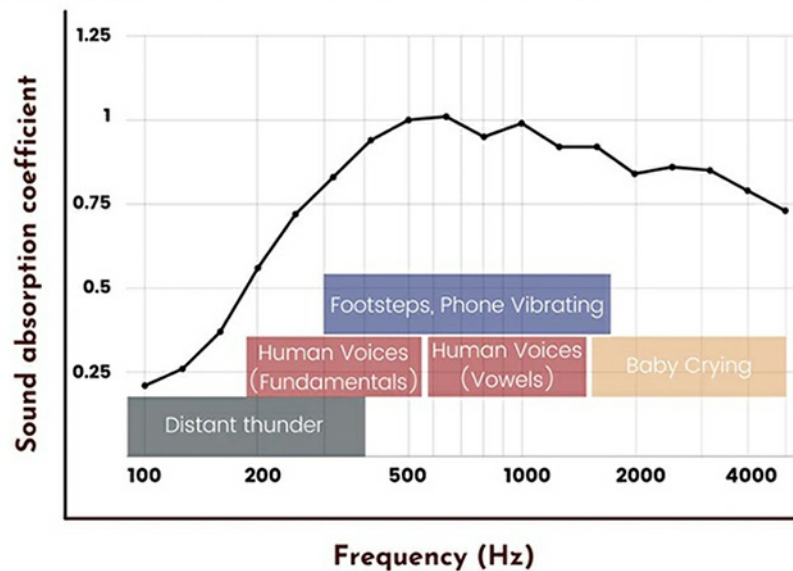

Class A Sound Absorption

Tired of your home sounding like an echo chamber?

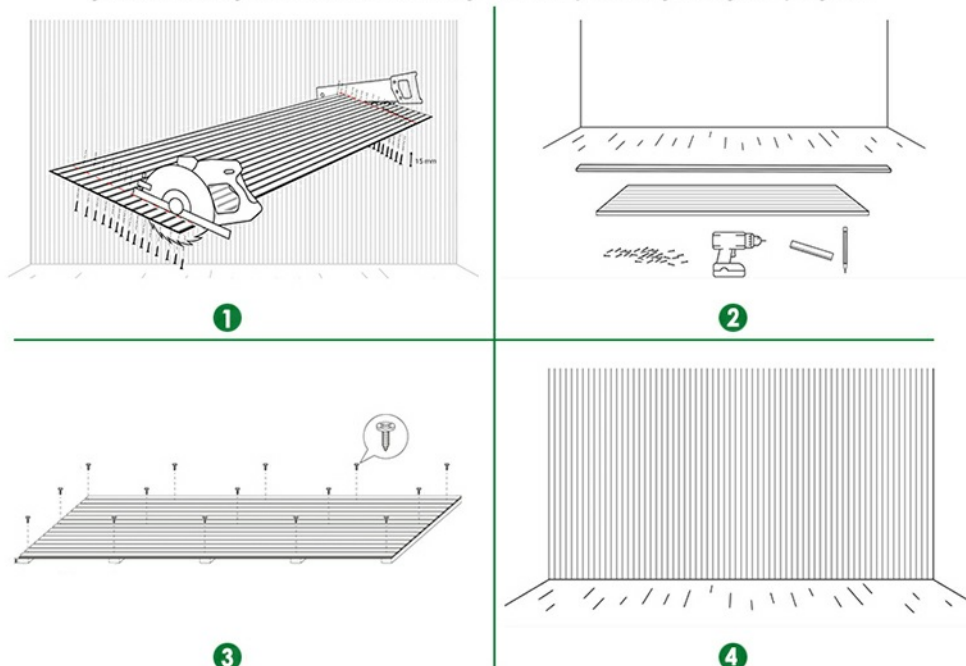

Each Slat Acoustics Panel absorbs up to **100% of sound frequencies between 500-1000Hz**, making your space sound naturally warm and welcoming.

About Installation

FULLY CUSTOMIZABLE

Make it Yours From headboards, to TV walls, and anything in between, you can easily cut Willow Panels by hand to perfectly suit your project.

Specification

item	value
Warranty	1 Year
