Product Description

WOOD PANEL
WALL AKUPANEL

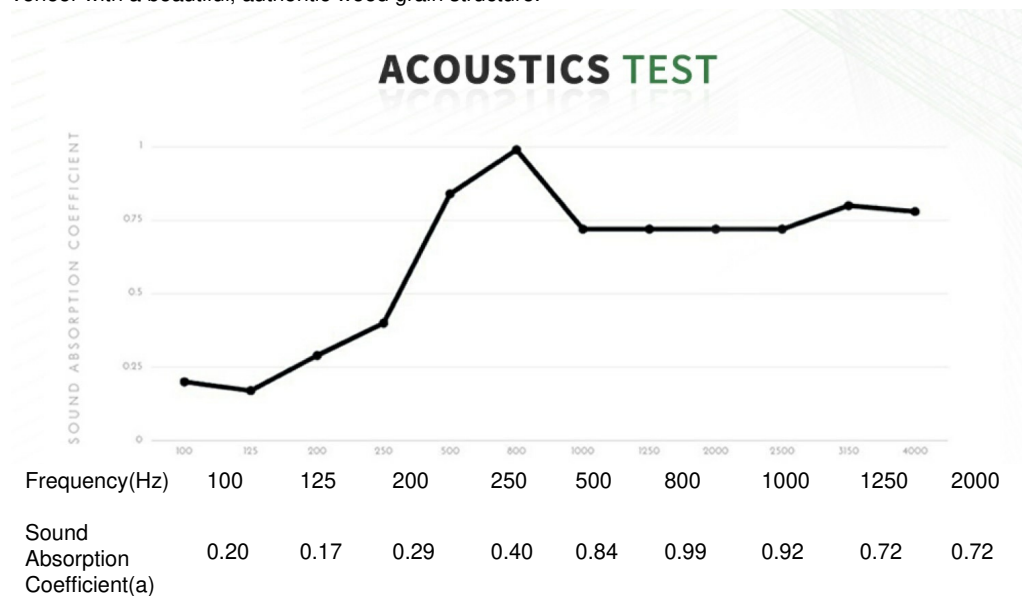

Akupanel for better sound

Bring a fresh new look to your space with Akupanel. These stylish panels not only beautify your walls, but also enhance the acoustics of the room, creating a quiet and peaceful environment perfect for relaxing. Create magnificent walls and ceilings with strip wall cladding and add a modern touch to your room. Reduce echoes in the room and the impact of everyday noise thanks to our recycled plastic felt as a support for the slats. Improve your room acoustics thanks to our slats!

Sustainable and 100% eco-friendly

We take sustainability very seriously. That's why every Akupanel with Natural Oak Veneer is completely eco-friendly and 100% sourced and produced from certified sustainable sources. For example, the back of Akupanel Natural Oak is made from recycled felt, while the front features a sustainable three-sided wood veneer with a beautiful, authentic wood grain structure.

HOT TREND AKUPANEL COLOR

Installation method

Mount the acoustic panels directly to the beams using screws. You can easily insert the screws between the acoustic felt strips underneath. The panels can be easily cut using a fine-tooth saw (circular saw). The underlying acoustic felt can be easily cut with a good knife (cutter).

It can also be mounted directly on the wall, apply glue to the panel and hold it against the wall. Make sure to press it firmly.
