

3D Acoustic Panel Acoustic Treatment For Music Practice Rooms And Home Theaters

Our Product Introduction

for more products please visit us on acousticpanelwalls.com

Basic Information

- Place of Origin: Guangdong, China
- Brand Name: MQ Acoustics
- Model Number: polyester fiber acoustic panel
- Minimum Order Quantity: 100 pcs
- Price: \$10.25/pcs 100-199 square meters
- Packaging Details: Carton
- Delivery Time: 7-15 days
- Payment Terms: T/T
- Supply Ability: 5000 Square Meter/Square Meters per Month

Product Specification

- Core Material: 100% Polyester Fiber
- Design: 3D Pattern
- Color: More Than 48 Colors, Customized
- Installation: Pasting Directly With Spray, Hot Melt Adhesive
- Pattern: Hexagon, Triangle, Diamond, Etc.
- Package: Carton
- Warranty: 3 Years
- Origin: China
- Usage: Sound Absorption And Decoration
- Port: GUANGZHOU
- Sound Absorption Coefficient: 0.85
- Highlight: Acoustic Treatment 3D Acoustic Panel, Home Theaters 3D Acoustic Panel, Music Practice Rooms 3D Acoustic Panel

Products Description

With the 3D wall [acoustic panel](#) that can be produced in special sizes and shapes, you can create a room with perfect design with your imagination. The poplary room with 3D wall panel, music room, studio audio recording room, office, study room, conference room and so on. ideal for acoustic environments.

Living Room: These panels help to improve the sound quality and reduce unwanted noise, making your living room an ideal place for relaxation and entertainment.

Music Room: For music enthusiasts, a music room with 3D wall acoustic panels is a game-changer. These panels help to enhance the sound quality, reduce reflections, and create a more authentic listening experience.

Studio Audio Recording Room: These panels assist in controlling room reflections, standing waves, and other acoustic anomalies, resulting in superior sound quality and accurate recordings.

Office: A modern office equipped with 3D wall panels can create a quiet and focused work environment. These panels help to minimize noise distractions, improving productivity and overall comfort for employees.

Study Room: A study room with 3D wall acoustic panels is an ideal space for concentration and studying. These panels absorb excess noise, ensuring a peaceful environment that promotes focus and academic success.

Conference Room: In a conference room, 3D wall panels can significantly improve speech clarity and reduce background noise. This enhances communication and ensures that all participants can easily understand the discussion.

Highly decorative

QUICK AND EASY INSTALLATION

1. Keep the surface clean and operate in a dry, oil-free condition

2. Please shake well before use to achieve better results

3. Spray evenly from 20-30cm away from the bonding surface

4. Invert the sprayer irrigation after use and spray downward for about 2-3 seconds to clean the residual glue and avoid clogging of the spray head

FIRE RESISTANT 3D FIBRE

Fire resistant 3D fibre acoustic panels is easy to work with, easy to maintain and a wide range of colours

THE 3D POLYESTER

The 3D polyester fiberboard is made of polyester fiber by high-tech hot pressing. It made in the shape of cocoon cotton to achieve density diversity and ensure ventilation. The highest sound absorption coefficient in the noise range of 125~4000HZ can reach 0.9 or more, and it has good performance in the middle and high frequency range.

ACOUSTIC DECORATIVE TREATMENT IS NOT THAT DIFFICULT

MEETING DIVERSE ACOUSTIC AND DECORATIVE NEEDS

Company Profile

About Us

Magic Cube (MQ) Acoustics is a professional acoustic solution provider, integrating acoustic material manufacturing, architectural acoustical environment construction and industrial noise control. We are committed to the combination of Acoustics & Aesthetic, to offering our clients the best acoustic solution with high quality acoustic material.

In order to meet the higher needs of customers, we has introduced advanced production equipment which has fully guaranteed product quality and technology. After 5 years of rapid development, we has an annual output of more than 500,000 square meters of various acoustic materials.

FAQ

1. Can I get free samples and how long does it take to produce samples?

If the samples you need are in our stock, they will be provided to you for free. Customized samples usually take about a week to produce.

2. Do you accept OEM or ODM order?

Yes, as a manufacturer, we can produce acoustic materials based on your samples or drawings. Please do not hesitate to contact us.

3. How to get an accurate quotation?

Can provide us with detailed product information, such as pattern, core material, surface, etc. If you have CAD or other drawings, don't hesitate to send it to us.

4. Payment terms

T/T 30% deposit before production, 70% balanced payment before delivery.

For more information, please feel free to contact us.
