

## Meeting Room Wall Covering 1200\*2400mm Polyester Fiber Acoustic Panel For Sound Reduction

### Our Product Introduction

#### Basic Information

- Place of Origin: Guangdong, China
- Brand Name: MQ Acoustics
- Model Number: fiber acoustic panels
- Minimum Order Quantity: 100 square meters
- Price: \$9.14/square meters 100-199 square meters
- Packaging Details: Carton Box, Pallet
- Delivery Time: 5-8 work day
- Payment Terms: T/T
- Supply Ability: 5000 Square Meter/Square Meters per Month

#### Product Specification

- Product Name: PET Acoustic Panel
- Acoustic Type: Porous Sound Absorbing Material
- Standard Size: 1220\*2420mm
- Thickness: 9/12/15/18/24mm
- Density: 1200g-3700gsm
- Color: More Than 48 Colors To Be Chosen
- Application: Office Building, Office, Meeting Room, Multi-Function Hall, Etc.
- Weight(standard Size): 2.6-6.5kg Per Panel
- Origin: China
- Transport Package: Carton Box, Pallet
- Function: Interior Decoration And Sound Absorbing
- Port: GUANGZHOU
- Warranty: 5 Years
- Highlight: **Sound Reduction Polyester Fiber Acoustic Panel**

## Product Description

### Products Description

Polyester fiber acoustic panel is synthesized by hot pressing, and the porosity is above 90%. It has the advantages of heat insulation, fire prevention, dust prevention, light weight and no decay, also has better sound absorption effect, high strength, good decoration, convenient construction, environmental protection.

Material	100% polyester fiber
Size	1220*2420 mm or customized
Thickness	9mm/12mm (0.35in, 0.47in)
Density	1200-3700g/m <sup>2</sup>
Eco-Friendly	Class E1
Edge	Square or beveled
Usage	Sound absorption

### Features

**Sound Absorption Performance:** Polyester fiber sound-absorbing boards are effective in absorbing sound across various frequencies, with a higher absorption coefficient particularly in the high-frequency range, which helps to eliminate sound impurities and improve audio quality.

**Physical Characteristics:** The material is uniform and solid with good elasticity, toughness, wear resistance, impact resistance, and tear resistance. The boards are large in size, making them easy to cut and shape.

**Product Diversity:** The surface shapes and patterns are varied, and the colors and patterns are rich, allowing for the creation of different patterns to meet individualized needs.

**Environmental Friendliness and Safety:** Compliant with environmental standards, the boards have low formaldehyde emissions and meet GB8624B1 fire safety standards, being non-flammable and safe to use.

**Easy Installation:** The installation is simple, without the need for sound-absorbing cotton or decorative panels. Basic installation operations can achieve sound absorption and decorative effects, reducing construction costs and time.

**Easy Maintenance:** Dust and stains are easy to clean, and the maintenance is simple, making them suitable for places that require frequent cleaning.

# Product Features

## 1/ Excellent sound absorbing performance:

The NRC can be 0.85 to 0.94

## 2/ Easy installation

To cut by knife and easy to install by glue or nail

## 3/ Good physical stability

Can meet ASTM E84-2016

## 4/ Various of Color for Option

Can easily realize the designer's inspiration

# Applications

Company Profile

## About Us

Magic Cube (MQ) Acoustics is a professional acoustic solution provider, integrating acoustic material manufacturing, architectural acoustical environment construction and industrial noise control. We are committed to the combination of Acoustics & Aesthetic, to offering our clients the best acoustic solution with high quality acoustic material.

In order to meet the higher needs of customers, we has introduced advanced production equipment which has fully guaranteed product quality and technology. After 5 years of rapid development, we has an annual output of more than 500,000 square meters of various acoustic materials.

## FAQ

---

### 1. Can I get free samples and how long does it take to produce samples?

If the samples you need are in our stock, they will be provided to you free of charge. Customized samples usually take about a week to produce.

### 2. Do you accept OEM or ODM order?

Yes, as a manufacturer, we can produce acoustic materials based on your samples or drawings. Please do not hesitate to contact us.

### 3. How to get an accurate quotation?

Can provide us with detailed product information, such as pattern, core material, surface, etc. If you have CAD or other drawings,

don't hesitate to send it to us.

### 4. Payment terms

T/T 30% deposit before production, 70% balanced payment before delivery.

For more information, please feel free to contact us.
