

Customizable Polyester Fiber Acoustic Panel For Interior Acoustic Design And Soundproofing

Our Product Introduction

Basic Information

- Place of Origin: Guangdong, China
- Brand Name: MQ Acoustics
- Model Number: fiber acoustic panels
- Minimum Order Quantity: 100 square meters
- Price: \$9.14/square meters 100-199 square meters
- Packaging Details: Carton Box, Pallet
- Delivery Time: 5-8 work day
- Payment Terms: T/T
- Supply Ability: 5000 Square Meter/Square Meters per Month

Product Specification

- Product Name: PET Acoustic Panel
- Acoustic Type: Porous Sound Absorbing Material
- Standard Size: 1220*2420mm
- Thickness: 9/12/15/18/24mm
- Density: 1200g-3700gsm
- Color: More Than 48 Colors To Be Chosen
- Application: Office Building, Office, Meeting Room, Multi-Function Hall, Etc.
- Weight(standard Size): 2.6-6.5kg Per Panel
- Origin: China
- Transport Package: Carton Box, Pallet
- Function: Interior Decoration And Sound Absorbing
- Port: GUANGZHOU
- Warranty: 5 Years
- Highlight: **Soundproofing Polyester Fiber Acoustic Panel,**

Products Description

Polyester fiber acoustic panel is synthesized by hot pressing, and the porosity is above 90%. It has the advantages of heat insulation, fire prevention, dust prevention, light weight and no decay, also has better sound absorption effect, high strength, good decoration, convenient construction, environmental protection.

Material	100% polyester fiber
Size	1220*2420 mm or customized
Thickness	9mm/12mm (0.35in, 0.47in)
Density	1200-3700g/m²
Eco-Friendly	Class E1
Edge	Square or beveled
Usage	Sound absorption

Feature Highlights:

Sound Absorption & Noise Reduction: Made of polyester fiber, this product offers excellent sound absorption properties, effectively reducing sound reflections within meeting rooms and enhancing speech clarity for a quieter environment.

High Strength: The polyester fiber material provides good strength and toughness, allowing the wall panel to withstand certain impacts and extend its lifespan.

Easy to Clean: The smooth surface of the wall panel resists dirt and stains, making it easy to clean and maintain, ensuring a hygienic meeting environment.

Aesthetically Pleasing: With a variety of colors and styles available, the wall panel can be chosen to match the meeting room's aesthetic and personal preferences, enhancing the overall visual appeal.

Easy Installation: The modular design of the wall panel makes installation quick and convenient, eliminating complex construction processes and saving time and labor costs.

Environmentally Friendly & Energy-saving: Made from eco-friendly materials, this product meets national environmental protection standards and is recyclable, reducing environmental pollution.

Applicable Scenarios:

Meeting Room: Reduces sound reflections in meeting rooms, improving voice clarity and providing a quiet environment for meetings.

Auditorium: Absorbs sound in auditoriums, enhancing the listening experience for attendees.

Classroom: Lowers noise levels in classrooms, creating a quieter learning environment for students.

Recording Studio: Absorbs sound during recording, improving the recording quality.

Office Area: Reduces noise in office areas, increasing work efficiency.

Product Features

1/ Excellent sound absorbing performance:

The NRC can be 0.85 to 0.94

2/ Easy installation

To cut by knife and easy to install by glue or nail

3/ Good physical stability

Can meet ASTM E84-2016

4/ Various of Color for Option

Can easily realize the designer's inspiration

Applications

Company Profile

About Us

Magic Cube (MQ) Acoustics is a professional acoustic solution provider, integrating acoustic material manufacturing, architectural acoustical environment construction and industrial noise control. We are committed to the combination of Acoustics & Aesthetic, to offering our clients the best acoustic solution with high quality acoustic material.

In order to meet the higher needs of customers, we has introduced advanced production equipment which has fully guaranteed product quality and technology. After 5 years of rapid development, we has an annual output of more than 500,000 square meters of various acoustic materials.

FAQ

1. Can I get free samples and how long does it take to produce samples?

If the samples you need are in our stock, they will be provided to you free of charge. Customized samples usually take about a week to produce.

2. Do you accept OEM or ODM order?

Yes, as a manufacturer, we can produce acoustic materials based on your samples or drawings. Please do not hesitate to contact us.

3. How to get an accurate quotation?

Can provide us with detailed product information, such as pattern, core material, surface, etc. If you have CAD or other drawings,

don't hesitate to send it to us.

4. Payment terms

T/T 30% deposit before production, 70% balanced payment before delivery.

For more information, please feel free to contact us.
