Products Introduction

Name	Wood Slat Acoustic Panel
Basic Material	polyester fiber acoustic panel+MDF pane
Finish	wood veneer/ PVC/ melamine
Size	60*240/270/300cm
Color	oak / walnut / tesk / black / gray oak
Featrues	sound absorption, light weight, easy installation

Main features:

Excellent acoustic performance

The wood stripe acoustic panel is made of high-density materials and has excellent sound absorption effect. It is suitable for places where echo and noise need to be controlled, such as conference rooms, home theaters, music rooms, etc.

Beautiful appearance design

The panel surface presents a natural wood grain texture, which can provide effective acoustic adjustment and blend with various interior design styles. Whether it is modern minimalist style or natural style decoration, the wood stripe acoustic panel can be perfectly matched.

Environmentally friendly materials

Made of sustainable wood and environmentally friendly materials, it ensures not only effective noise reduction, but also meets green environmental standards to ensure the health of living and working environments.

Easy installation

The wood stripe acoustic panel is very easy to install and can be quickly installed on the wall or ceiling to adapt to the needs of different spaces, helping to quickly improve sound quality and noise control.

Installation Steps

1 Measure the size of the installation location

2 Measure panel size

3 Cut to appropriate size

4 Distribute the glue evenly on the back of the panel

5 Use screws to install the sound-absorbing panels on the wall

6 Complete the installation

Company Profile

About the Company

Magic Cube(MQ)Acoustics is a professional acoustic solution provider, integrating acoustic material manufacturing, architectural acoustical environment construction and industrial noise control. We are committed to the combination of Acoustics&Aesthetic, to offering our clients the best acoustic solution with high quality acoustic material.

The exhibition hall

In order to meet the higher needs of customers, we have introduced advanced production equipment which has fully guaranteed product quality and technology. After 5 years of rapid development, we have an annual output of more than 500,000 square meters of various acoustic materials.

Team Activity

Package&Transport

1. Can I get free samples and how long does it take to produce samples?

If the samples you need are in our stock, they will be provided to you free of charge. Customized samples usually take about a week to produce.

2. Do you accept OEM or ODM order?

Yes, as a manufacturer, we can produce acoustic materials based on your samples or drawings. Please do not hesitate to contact us.

3. How to get an accurate quotation?

Can provide us with detailed product information, such as pattern, core material, surface, etc. If you have CAD or other drawings.

4. Payment terms

T/T 30% deposit before production, 70% balanced payment before delivery.

For more information, please feel free to contact us.
