Product Description

Products Introduction

Akupanel is an elegantly crafted wood strip decorative panel designed for both walls and ceilings, offering exceptional acoustic performance. Suitable for both home and business settings, these panels are simple to install and embody modern design in every aspect.

The Akupanel collection features a sleek, high-quality wood veneer finish, combining contemporary style with luxury. The clean, modern lamella strips are attached to a specially designed acoustic felt backing made from recycled materials. Its straightforward installation process makes it easy to quickly upgrade any space.

Name	Wood Slat Acoustic Panel
Basic Material	polyester fiber acoustic panel+MDF pane
Finish	wood veneer/ PVC/ melamine
Size	60*240/270/300cm
Color	oak / walnut / tesk / black / gray oak
Featrues	sound absorption, light weight, easy installation

Features: Acoustica Wood Slat Wall Panels are designed to dampen sound, are odorless, non-toxic, and crafted from eco-friendly materials.

Design: These wall panels provide endless creative opportunities to enhance your interior design and add natural accents. Our collection includes a variety of panels, available in multiple wood grain finishes to suit your style.

Easy Installation: The sound-dampening panels can be installed using either caulking glue adhesive or nails. Apply the adhesive to the back of each panel and position it as desired. For added security, use black screws on the felt to secure the panels to the wall.

5 Use screws to install the sound-absorbing panels on the wall

6 Complete the installation

Company Profile

About the Company

Magic Cube(MQ)Acoustics is a professional acoustic solution provider, integrating acoustic material manufacturing, architectural acoustical environment construction and industrial noise control. We are committed to the combination of Acoustics&Aesthetic, to offering our clients the best acoustic solution with high quality acoustic material.

The exhibition hall

In order to meet the higher needs of customers, we have introduced advanced production equipment which has fully guaranteed product quality and technology. After 5 years of rapid development, we have an annual output of more than 500,000 square meters of various acoustic materials.

Team Activity

Package&Transport

1. Can I get free samples and how long does it take to produce samples?

If the samples you need are in our stock, they will be provided to you free of charge. Customized samples usually take about a week to produce.

2. Do you accept OEM or ODM order?

Yes, as a manufacturer, we can produce acoustic materials based on your samples or drawings. Please do not hesitate to contact us.

3. How to get an accurate quotation?

Can provide us with detailed product information, such as pattern, core material, surface, etc. If you have CAD or other drawings.

4. Payment terms

T/T 30% deposit before production, 70% balanced payment before delivery.

For more information, please feel free to contact us.
