Product Description

Product Introduction

Looking to enhance the ambiance of your home theater, recording studio, or office space? Look no further than our **Suede Wrapped Acoustic Panel**, a perfect blend of functionality and aesthetics.

Crafted for Superior Sound Absorption:

This premium acoustic panel is meticulously constructed using a **9mm PET board** and a **12mm MDF board**, ensuring exceptional sound absorption across a wide frequency range. Say goodbye to unwanted echoes and reverberations, and hello to crystal-clear audio quality.

Wrapped in Luxurious Suede:

Elevate your space with the **plush suede fabric** that elegantly wraps the panel. Available in a variety of sophisticated colors, this panel seamlessly integrates into any décor, adding a touch of luxury and refinement.

More Than Just a Pretty Face:

Beyond its stunning appearance, the Suede Wrapped Acoustic Panel is an **versatile solution** for:

Home Theaters: Immerse yourself in cinematic sound without disturbing others.

Recording Studios: Achieve professional-grade sound recording by minimizing unwanted noise reflections.

Offices: Create a more productive and focused work environment by reducing distracting noises.

Restaurants and Cafes: Enhance the dining experience by softening noise levels and creating a more intimate atmosphere.

OUR STANDARD PATTERN SIZE

The Pattern Size Can Be Customized

MAIN STRUCTURE

Suede

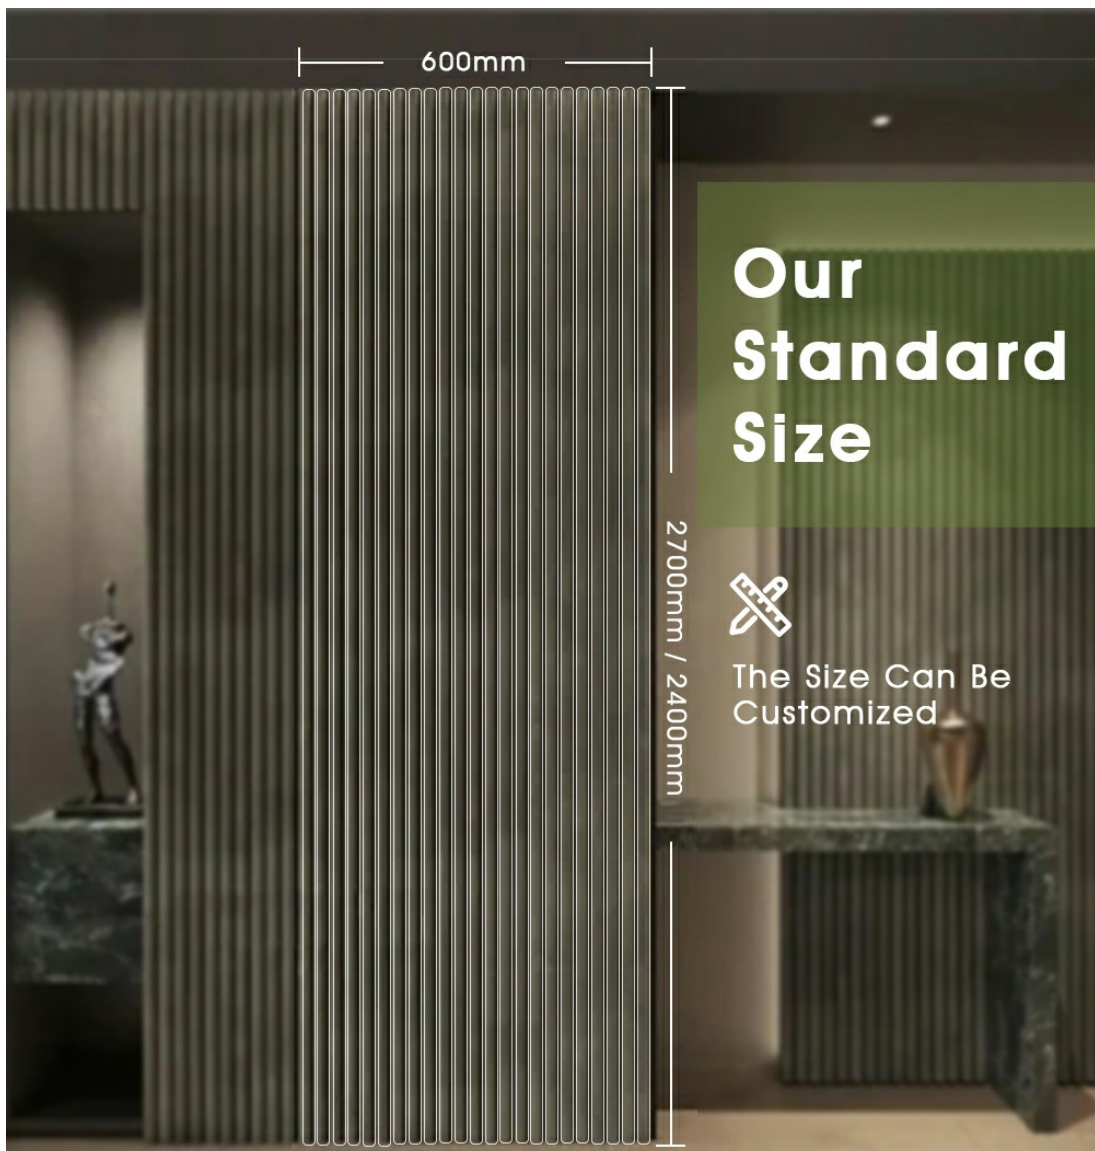

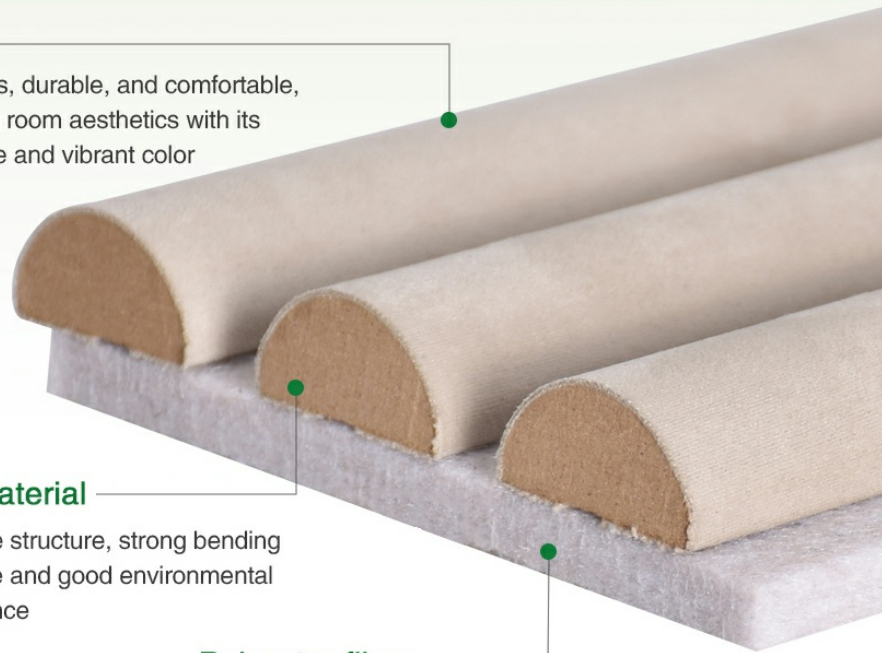

is luxurious, durable, and comfortable, enhancing room aesthetics with its soft texture and vibrant color

MDF material

has stable structure, strong bending resistance and good environmental performance

Polyester fiber

has good sound absorption properties, can reduce sound reflection and echo, and has Eco-Friendly

**RICH COLORS AND RANDOM
COMBINATION**

APPLICATION SCENARIO DIAGRAM

FAQ

What do I need for installation?

For installation, you will need a drill and any appropriate fastening hardware. For example, if you're mounting into drywall (rather than studs), you'll want to purchase drywall anchors with the appropriate screws. Please note screws are not included with the panel.

Can I cut the panels?

Yes, absolutely. The panels are easy to cut using a handsaw or a circular saw. Simply measure twice and cut once!

Can I hang a TV from the panels?

We don't recommend hanging a TV directly from the panels, instead cut out a gap for the TV mount and mount it to your wall as you regularly would. From there, you can install the panels around the mount before hanging your TV from the mount.

How do I wash the panels?

The best way to wash the slats is with a well-wrung cloth or duster. If you ever want to clean the felt between the slats, simply use a vacuum.
