Products Introduction

The Office Wood Veneer MDF Slat Panel is a high-quality acoustic decorative panel designed for office environments. It combines the aesthetic appeal of natural wood veneer with the durability of Medium-Density Fiberboard (MDF), while offering excellent acoustic performance. The integrated Pet Acupanel Acoustic technology further enhances its sound-absorbing capabilities, making it an ideal choice for modern office spaces, conference rooms, hotels, restaurants, and more.

Name	Wood Slat Acoustic Panel
Basic Material	polyester fiber acoustic panel+high quality MDF board
Finish	natural veneer, fireproof board, paint, metal, technical veneer
Size	600*2400/2700/3000mm
Color	oak / walnut / tesk / black / gray oak
Featrues	sound absorption, light weight, easy installation
Application	Concert halls, theaters, piano rooms, auditoriums, corridors, gymnasiums, conference rooms, multi-functional halls

Key Features:

- Natural Wood Veneer: Features real wood veneer, providing a natural and warm visual effect that enhances the space's texture.
- MDF Base Material: Medium-Density Fiberboard (MDF) ensures the panel's stability and durability, preventing warping or cracking.
- Acoustic Performance: Equipped with Pet Acupanel Acoustic technology, it effectively absorbs noise, improves indoor acoustics, and reduces echo and noise disturbances.
- Eco-Friendly Materials: Uses environmentally friendly adhesives and coatings, complying with international environmental standards, making it suitable for spaces with high indoor air quality requirements.
- Easy Installation: Simple design and easy installation, with customizable sizes and shapes to fit various spatial layouts.
- Versatile Applications: Suitable for walls, ceilings, and other decorative scenarios, serving both as functional acoustic material and decorative elements.

Suitable Applications:

- Offices
- Conference Rooms
- Hotel Lobbies
- Restaurants
- Libraries
- School Classrooms
- Home Theaters

3 Cut to appropriate size

4 Distribute the glue evenly on the back of the panel

5 Use screws to install the sound-absorbing panels on the wall

6 Complete the installation

Company Profile

About the Company

Magic Cube(MQ)Acoustics is a professional acoustic solution provider, integrating acoustic material manufacturing, architectural acoustical environment construction and industrial noise control. We are committed to the combination of Acoustics&Aesthetic, to offering our clients the best acoustic solution with high quality acoustic material.

The exhibition hall

In order to meet the higher needs of customers, we have introduced advanced production equipment which has fully guaranteed product quality and technology. After 5 years of rapid development, we have an annual output of more than 500,000 square meters of various acoustic materials.

Team Activity

Package&Transport

1. Can I get free samples and how long does it take to produce samples?

If the samples you need are in our stock, they will be provided to you free of charge. Customized samples usually take about a week to produce.

2. Do you accept OEM or ODM order?

Yes, as a manufacturer, we can produce acoustic materials based on your samples or drawings. Please do not hesitate to contact us.

3. How to get an accurate quotation?

Can provide us with detailed product information, such as pattern, core material, surface, etc. If you have CAD or other drawings.

4. Payment terms

T/T 30% deposit before production, 70% balanced payment before delivery.

For more information, please feel free to contact us.
