

Interior Decoration Acoustic Polyester Fiber Sheets For Wall And Ceiling

Our Product Introduction

Basic Information

- Place of Origin: Guangdong, China
- Brand Name: MQ Acoustics
- Model Number: fiber acoustic panels
- Minimum Order Quantity: 50pcs
- Price: 15.9/pc 100-200 pcs
- Packaging Details: Carton Box, Pallet
- Delivery Time: 5-8 work day
- Payment Terms: T/T

Product Specification

- Product Name: Polyester Fiber Acoustic Panel
- Material: 100% Polyester Fiber
- Standard Size: 1220*2440mm/customized
- Thickness: 9/12/15/18/24mm/customized
- Density: 1300g-3700gsm
- Color: More Than 48 Colors To Be Chosen
- Application: Office Building, Office, Meeting Room, Multi-Function Hall, Etc.
- Origin: China
- NRC: 0.85
- Transport Package: Carton Box, Pallet
- Function: Interior Decoration And Sound Absorbing
- Warranty: 5 Years
- Acoustic Type: Sound Absorbing Material
- Shape: Tegular, Square, Hexagon

Products Description

Acoustic polyester fiber sheets is a new type of acoustic material with high-density environmentally friendly polyester fiber as the main raw material. It is hot-pressed by a special process and has excellent sound absorption and noise reduction performance. Its porous structure can effectively absorb medium and high frequency sound waves of 500-4000Hz, significantly reduce the indoor reverberation time, and improve speech clarity. The product meets the national B1 fire protection standard, has moisture-proof, mildew-proof, anti-static properties, does not contain harmful substances such as formaldehyde, and is safe and environmentally friendly.

Compared with traditional sound-absorbing materials, it is lighter (density 80-120kg/m³), has stronger toughness, supports arbitrary cutting without chipping, and can be installed by gluing, nailing or hanging. The surface can be customized with a variety of colors and three-dimensional shapes, and can realize personalized pattern printing, which not only meets acoustic needs, but also can be integrated into modern space design as a decorative element. It is widely used in concert halls, conference rooms, offices, home theaters and other places. It is especially suitable for projects with dual requirements for acoustic environment and visual beauty. It is an ideal combination of architectural acoustics and interior decoration.

Product Name	Polyester Fiber Acoustic Panel
Application	Walls, Ceilings
Material	100% Polyester Fiber
Thickness	9mm / 12mm / 15mm / 20mm
Color	more than 48 colors options (customizable upon request)
Size	1220*2440mm (custom sizes available)
Fire Rating	Class B
Eco-Certification	Meets E1 environmental standards, formaldehyde-free, odorless

Product Features

1/ Excellent sound absorbing performance:
The NRC can be 0.85 to 0.94

2/ Easy installation
To cut by knife and easy to install by glue or nail

3/ Good physical stability
Can meet ASTM E84-2016

4/ Various of Color for Option
Can easily realize the designer's inspiration

Applications

Installation Methods

Direct Adhesion: Eco-friendly glue for flat walls/ceilings.
Suspension Hooks: Hanging panels .
Modular Snap-in: Easy assembly/disassembly for maintenance.

About Us

Magic Cube (MQ) Acoustics is a professional acoustic solution provider, integrating acoustic material manufacturing, architectural acoustical environment construction and industrial noise control. We are committed to the combination of Acoustics & Aesthetic, to offering our clients the best acoustic solution with high quality acoustic material.

In order to meet the higher needs of customers, we has introduced advanced production equipment which has fully guaranteed product quality and technology. After 5 years of rapid development, we has an annual output of more than 500,000 square meters of various acoustic materials.

FAQ

1. Can I get free samples and how long does it take to produce samples?

If the samples you need are in our stock, they will be provided to you free of charge. Customized samples usually take about a week to produce.

2. Do you accept OEM or ODM order?

Yes, as a manufacturer, we can produce acoustic materials based on your samples or drawings. Please do not hesitate to contact us.

3. How to get an accurate quotation?

Can provide us with detailed product information, such as pattern, core material, surface, etc. If you have CAD or other drawings,

don't hesitate to send it to us.

4. Payment terms

T/T 30% deposit before production, 70% balanced payment before delivery.

For more information, please feel free to contact us.
