Product Description

Products Description

Polyester desk screen is made from 100% polyester fiber, by needle punching processing. The production process is completely physical & eco-friendly, no waste water, emissions, waste, no adhesive. pet desk divider has good performance: eco-friendly, fireproof heat insulation, moisture-proof, environment protection, mildew proof, easy cutting, easy removal, simple installation, decorative, lightweight, easy machining, stable performance, impact resistance, easy maintenance etc.

Features:

Efficient sound absorption, quiet work: It is filled with high-quality 100% polyester fiber and processed with PET technology, with excellent sound absorption performance. It can effectively absorb and reduce noise and echoes from your surrounding environment, creating a quieter and more focused personal workspace for you, significantly improving work efficiency.

Colorful colors, brighten the space: Say goodbye to the monotonous office environment! This partition is available in a variety of bright and fashionable colors. You can choose your favorite color according to your personal preferences or the overall decoration style of the office, add a touch of bright color to the work area, and enhance the vitality and pleasure of the space.

Environmentally friendly material, safe and healthy: The main body of the product is made of PET material, which is a common environmentally friendly material. The filling is 100% polyester fiber, which is safe and non-toxic, meets the health requirements of the office environment, and makes you feel more at ease when using it.

Lightweight and easy to use, flexible matching: The design is lightweight and easy to carry and adjust the position. You can easily place it in front of the desk and flexibly combine it according to your needs. Whether it is a single partition or a multi-person collaboration area, it can be easily dealt with.

Practical partition, privacy protection: In addition to the sound absorption function, it is also an effective physical partition. It can effectively divide personal work areas, reduce visual interference, protect your personal space and privacy, and allow you to work more freely.

Easy to maintain: The surface material is usually easy to clean, and minor stains can be wiped with a damp cloth to keep it neat and beautiful.
