

9mm Thickness Polyester Sound Absorbing Panels for Wall PET Board

Our Product Introduction

for more products please visit us on acousticpanelwalls.com

Basic Information

- Place of Origin: Guangdong, China
- Brand Name: MQ Acoustics
- Model Number: fiber acoustic panels
- Minimum Order Quantity: 100pcs
- Price: 15.9/pc 100-200 pcs
- Packaging Details: Carton Box, Pallet
- Delivery Time: 5-8 work day
- Payment Terms: T/T

Product Specification

- Product Name: PET Panel
- Material: 100% Polyester Fiber
- Standard Size: 1220*2440mm/1200*600mm/customized
- Thickness: 9/12/24mm/customized
- Density: 1300g-3700gsm
- Color: More Than 48 Colors To Be Chosen
- Application: Office Building, Office, Meeting Room, Multi-Function Hall, Etc.
- Origin: China
- NRC: 0.80-0.85
- Transport Package: Carton Box & Pallet
- Function: Interior Decoration And Sound Absorbing
- Warranty: 5 Years
- Acoustic Type: Sound Absorbing Material
- Shape: Hexagon

Product Description

Products Description

Polyester fiber acoustic panels are eco-friendly sound-absorbing solutions made from recycled PET. They effectively reduce mid-to-high frequency noise (NRC 0.6-0.9) and are safer than fiberglass, with no harmful chemicals or irritation risks. Lightweight and fire-resistant (Class A/B), they're easy to install on walls or ceilings.

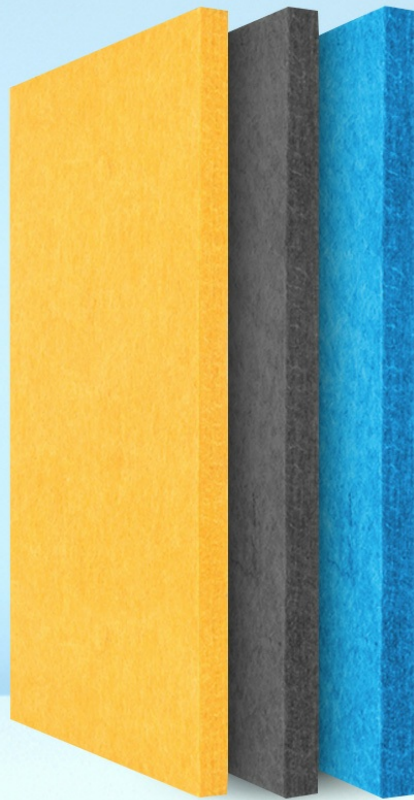

Available in various colors and thicknesses, these panels combine functionality with aesthetics, making them ideal for offices, studios, schools, and homes. They also resist moisture and mold while offering thermal insulation benefits. Compared to foam or fiberglass, polyester panels are more sustainable and visually appealing, balancing performance with design flexibility.

Product Name	Polyester Fiber Acoustic Panel
Application	Walls, Ceilings
Material	100% Polyester Fiber
Thickness	9mm / 12mm / 24mm
Color	more than 48 colors options (customizable upon request)
Size	1220*2440mm / 1200*600mm(custom sizes available)
Fire Rating	Class B
Eco-Certification	Meets E1 environmental standards, formaldehyde-free, odorless

Product Features

1/ Excellent sound absorbing performance:

The NRC can be 0.85 to 0.94

2/ Easy installation

To cut by knife and easy to install by glue or nail

3/ Good physical stability

Can meet ASTM E84-2016

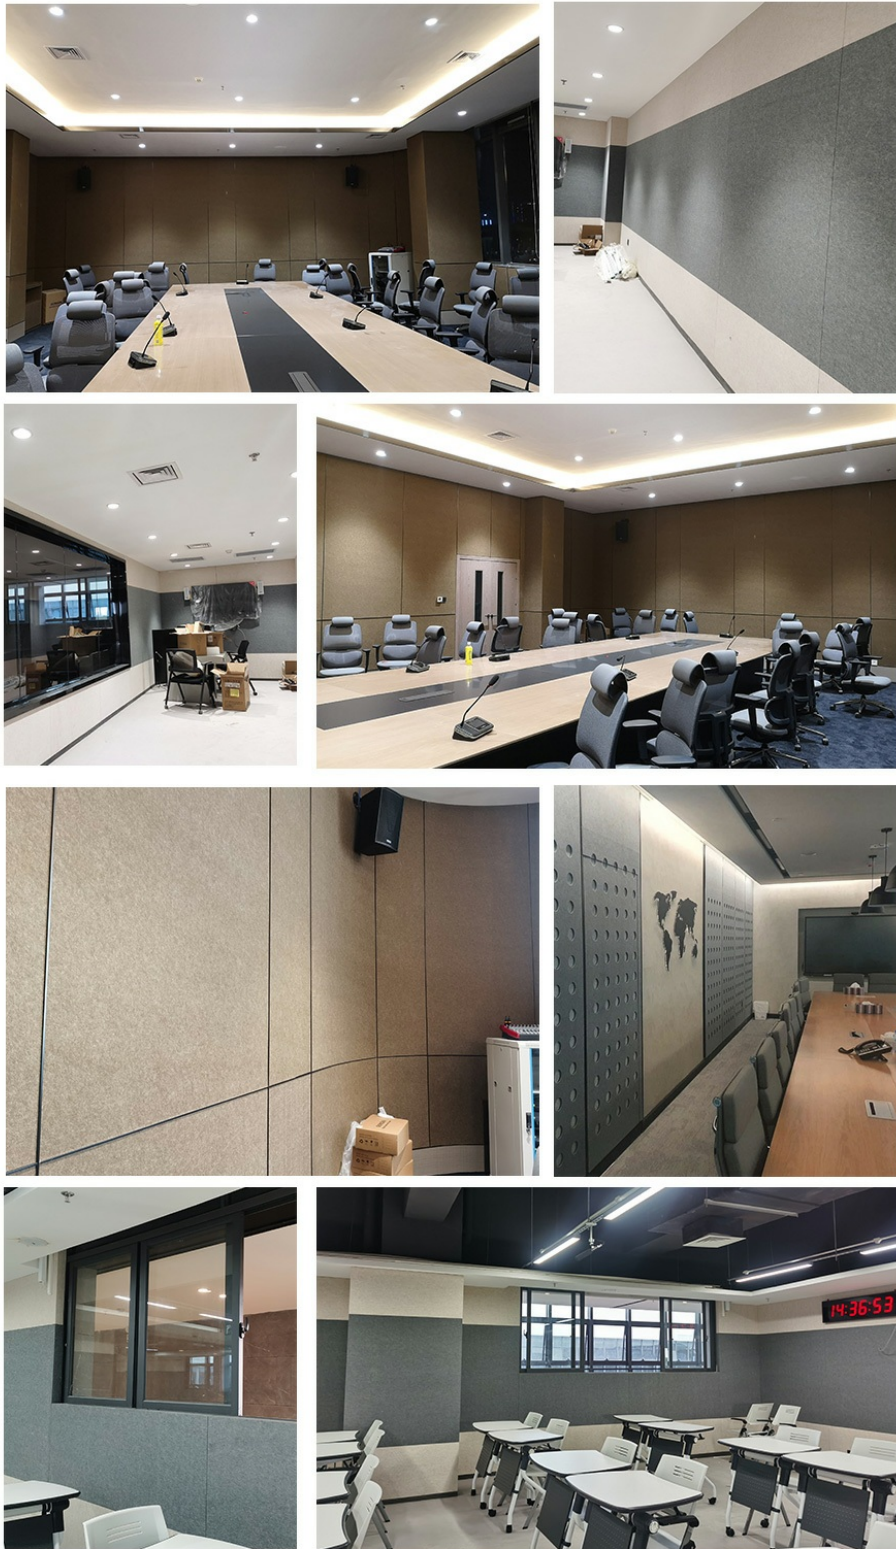

4/ Various of Color for Option

Can easily realize the designer's inspiration

Applications

Installation Methods

Direct Adhesion: Eco-friendly glue for flat walls/ceilings.
Suspension Hooks: Hanging panels .
Modular Snap-in: Easy assembly/disassembly for maintenance.

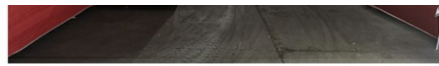

About Us

Magic Cube (MQ) Acoustics is a professional acoustic solution provider, integrating acoustic material manufacturing, architectural acoustical environment construction and industrial noise control. We are committed to the combination of Acoustics & Aesthetic, to offering our clients the best acoustic solution with high quality acoustic material.

In order to meet the higher needs of customers, we has introduced advanced production equipment which has fully guaranteed product quality and technology. After 5 years of rapid development, we has an annual output of more than 500,000 square meters of various acoustic materials.

FAQ

1. Can I get free samples and how long does it take to produce samples?

If the samples you need are in our stock, they will be provided to you free of charge. Customized samples usually take about a week to produce.

2. Do you accept OEM or ODM order?

Yes, as a manufacturer, we can produce acoustic materials based on your samples or drawings. Please do not hesitate to contact us.

3. How to get an accurate quotation?

Can provide us with detailed product information, such as pattern, core material, surface, etc. If you have CAD or other drawings,

don't hesitate to send it to us.

4. Payment terms

T/T 30% deposit before production, 70% balanced payment before delivery.

For more information, please feel free to contact us.
