

Environmental Friendly Acoustic Polyester Panels Polyester Sound Absorbing Panels

Our Product Introduction

for more products please visit us on acousticpanelwalls.com

Basic Information

- Place of Origin: Guangdong, China
- Brand Name: MQ Acoustics
- Model Number: fiber acoustic panels
- Minimum Order Quantity: 100pcs
- Price: 15.9/pc 100-200 pcs
- Packaging Details: Carton Box, Pallet
- Delivery Time: 5-8 work day
- Payment Terms: T/T

Product Specification

- Product Name: PET Panel
- Material: 100% Polyester Fiber
- Standard Size: 1220*2440mm/1200*600mm/customized
- Thickness: 9/12/24mm/customized
- Density: 1300g-3700gsm
- Color: More Than 48 Colors To Be Chosen
- Application: Office Building, Office, Meeting Room, Multi-Function Hall, Etc.
- Origin: China
- NRC: 0.80-0.85
- Transport Package: Carton Box & Pallet
- Function: Interior Decoration And Sound Absorbing
- Warranty: 5 Years
- Acoustic Type: Sound Absorbing Material
- Shape: Hexagon

Product Description

Products Description

Eco-friendly Polyester Acoustic Panels are a revolutionary, high-performance solution for managing noise and enhancing acoustic comfort in any space. Crafted from 100% post-consumer recycled PET plastic (like water bottles), these panels are not only highly effective at absorbing unwanted sound but also represent a profound commitment to environmental responsibility. They offer a safe, healthy, and aesthetically versatile alternative to traditional fiberglass or foam acoustic products.

Product Name	Polyester Fiber Acoustic Panel
Application	Walls, Ceilings
Material	100% Polyester Fiber
Thickness	9mm / 12mm / 24mm
Color	more than 48 colors options (customizable upon request)
Size	1220*2440mm / 1200*600mm(custom sizes available)
Fire Rating	Class B
Eco-Certification	Meets E1 environmental standards, formaldehyde-free, odorless

Key Features & Benefits:

1. Superior Sound Absorption

Technology: Our panels utilize a dense, porous structure that effectively captures sound waves and converts sound energy into negligible heat energy.

Performance: Achieves high Noise Reduction Coefficient (NRC) ratings (e.g., up to NRC 0.95), meaning they absorb up to 95% of incident sound, drastically reducing reverberation time, echo, and background noise.

Result: Creates clearer, more intelligible speech, improves concentration in offices, enhances audio quality in recording studios, and fosters tranquility in homes.

2. Environmentally Friendly & Healthy

Made from Recycled Materials: Each panel diverts hundreds of post-consumer PET bottles from landfills and oceans, giving them a new, valuable life.

Non-Toxic & Safe: Completely free of formaldehyde, fiberglass, and other volatile organic compounds (VOCs). They do not shed irritating particles, ensuring safe installation and a healthy indoor air quality environment.

Fully Recyclable: At the end of their long life, these panels can be recycled again, supporting a circular economy.

3. Design Versatility & Ease of Installation

Customizable Aesthetics: Available in a vast spectrum of colors, sizes, and thicknesses. Can be easily customized into various shapes (hexagons, clouds, baffles) to fit any design vision.

Easy to Work With: Panels are lightweight and can be easily cut with a utility knife for a perfect fit. They seamlessly work with standard adhesives, staples, or clip systems for wall and ceiling mounting.

Clean & Simple: The fabric finishes are durable and easy to maintain.

Product Features

1/ Excellent sound absorbing performance:

The NRC can be 0.85 to 0.94

2/ Easy installation

To cut by knife and easy to install by glue or nail

3/ Good physical stability

Can meet ASTM E84-2016

4/ Various of Color for Option

Can easily realize the designer's inspiration

Applications

Installation Methods

Direct Adhesion: Eco-friendly glue for flat walls/ceilings.
Suspension Hooks: Hanging panels .
Modular Snap-in: Easy assembly/disassembly for maintenance.

About Us

Magic Cube (MQ) Acoustics is a professional acoustic solution provider, integrating acoustic material manufacturing, architectural acoustical environment construction and industrial noise control. We are committed to the combination of Acoustics & Aesthetic, to offering our clients the best acoustic solution with high quality acoustic material.

In order to meet the higher needs of customers, we has introduced advanced production equipment which has fully guaranteed product quality and technology. After 5 years of rapid development, we has an annual output of more than 500,000 square meters of various acoustic materials.

FAQ

1. Can I get free samples and how long does it take to produce samples?

If the samples you need are in our stock, they will be provided to you free of charge. Customized samples usually take about a week to produce.

2. Do you accept OEM or ODM order?

Yes, as a manufacturer, we can produce acoustic materials based on your samples or drawings. Please do not hesitate to contact us.

3. How to get an accurate quotation?

Can provide us with detailed product information, such as pattern, core material, surface, etc. If you have CAD or other drawings,

don't hesitate to send it to us.

4. Payment terms

T/T 30% deposit before production, 70% balanced payment before delivery.

For more information, please feel free to contact us.
