

## 600\*1200mm Eco-friendly Polyester Fiber Acoustic Board Wall PET Panel

### Our Product Introduction

#### Basic Information

- Place of Origin: Guangdong, China
- Brand Name: MQ Acoustics
- Minimum Order Quantity: 100pcs
- Price: 15.9/pc 100-200 pcs
- Packaging Details: Carton Box, Pallet
- Delivery Time: 5-8 work day
- Payment Terms: T/T

#### Product Specification

- Product Name: Polyester Fiber Acoustic Board
- Material: 100% Polyester Fiber
- Standard Size: 1220\*2440mm/customized
- Thickness: 9/12/24mm/customized
- Density: 1350g-3700gsm
- Color: More Than 48 Colors To Be Chosen
- Application: Office Building, Office, Meeting Room, Multi-Function Hall, Etc.
- Origin: China
- NRC: 0.80-0.9
- Transport Package: Carton Box & Pallet
- Function: Interior Decoration And Sound Absorbing
- Warranty: 3 Years
- Acoustic Type: Sound Absorbing Material
- Shape: Hexagon

## Product Description

### Product Description

Product Name	Polyester Fiber Acoustic Panel
Application	Walls, Ceilings
Material	100% Polyester Fiber
Thickness	9mm / 12mm / 24mm
Color	more than 48 colors options (customizable upon request)
Size	1220*2440mm / 1200*600mm(custom sizes available)
Fire Rating	Class B
Eco-Certification	Meets E1 environmental standards, formaldehyde-free, odorless

#### Acoustic Performance Benefits

**Excellent Sound Absorption:** These panels are engineered to absorb sound waves, significantly reducing reverberation (echo) and background noise within a room. This leads to a calmer, quieter, and more acoustically comfortable environment.

**Improved Speech Intelligibility:** By controlling echo, they make speech clearer and easier to understand. This is crucial in offices, classrooms, restaurants, and conference rooms.

**Noise Reduction Coefficient (NRC):** They typically have a high NRC rating (often between 0.8 and 0.9), meaning they absorb the majority of sound that hits them. A higher NRC equals better performance.

#### Practical & Functional Benefits

**Lightweight:** Polyester fiber panels are much lighter than mineral wool or wood fiber alternatives. This makes them easier to handle, transport, and install.

**Easy to Cut and Shape:** They can be easily cut with a utility knife, saw, or even scissors.

**Durable and Moisture Resistant:** Unlike some natural materials, polyester fiber is not susceptible to moisture, mold, or mildew. It won't sag or deteriorate in humid environments.

# Product Features

## 1/ Excellent sound absorbing performance:

The NRC can be 0.85 to 0.94

## 2/ Easy installation

To cut by knife and easy to install by glue or nail

## 3/ Good physical stability

Can meet ASTM E84-2016

## 4/ Various of Color for Option

Can easily realize the designer's inspiration

# Applications

## Installation Methods

Direct Adhesion: Eco-friendly glue for flat walls/ceilings.  
Suspension Hooks: Hanging panels .  
Modular Snap-in: Easy assembly/disassembly for maintenance.

## Company Profile

---

# About Us

Magic Cube (MQ) Acoustics is a professional acoustic solution provider, integrating acoustic material manufacturing, architectural acoustical environment construction and industrial noise control. We are committed to the combination of Acoustics & Aesthetic, to offering our clients the best acoustic solution with high quality acoustic material.

In order to meet the higher needs of customers, we has introduced advanced production equipment which has fully guaranteed product quality and technology. After 5 years of rapid development, we has an annual output of more than 500,000 square meters of various acoustic materials.

## FAQ

### 1. Can I get free samples and how long does it take to produce samples?

If the samples you need are in our stock, they will be provided to you free of charge. Customized samples usually take about a

week to produce.

### 2. Do you accept OEM or ODM order?

Yes, as a manufacturer, we can produce acoustic materials based on your samples or drawings. Please do not hesitate to contact us.

### 3. How to get an accurate quotation?

Can provide us with detailed product information, such as pattern, core material, surface, etc. If you have CAD or other drawings,

don't hesitate to send it to us.

### 4. Payment terms

T/T 30% deposit before production, 70% balanced payment before delivery.

For more information, please feel free to contact us.
