

## Customizable 3D Acoustic Panel for Noise Reduction and Aesthetic Enhancement

### Our Product Introduction

#### Basic Information

- Place of Origin: Guangdong, China
- Brand Name: MQ Acoustics
- Model Number: polyester fiber acoustic panel
- Minimum Order Quantity: 100 pcs
- Price: \$10.25/pcs 100-199 square meters
- Packaging Details: Carton
- Delivery Time: 7-15 days
- Payment Terms: T/T
- Supply Ability: 5000 Square Meter/Square Meters per Month

MAGIC CUBE  
ACOUSTIC MATERIALS

#### Product Specification

- Item: Hexagon 3D Acoustic Panel
- Material: 100% Polyester Fiber
- Size: 46.4\*40.4cm
- Thickness: 15mm
- Color: More Than 48 Colors, Customized
- Installation: Pasting Directly With Spray, Hot Melt Adhesive
- Pattern: Hexagon, Triangle, Diamond, Etc.
- Packing: Carton
- Warranty: 2 Years
- After-sale Service: Online Technical Support, Return And Replacement, Other
- Customization: Available
- Usage: Sound Absorption And Decoration

## Products Description

Our 3D acoustic panels are crafted from high-quality, eco-friendly materials to deliver exceptional sound management without compromising on aesthetics. The intricate three-dimensional designs not only absorb unwanted noise but also serve as striking visual elements, adding depth and texture to walls and ceilings. Easy to install and maintain, these panels are ideal for architects, designers, and homeowners seeking tailored acoustic solutions. Improve speech intelligibility, minimize distractions, and redefine your environment with panels that are as effective as they are beautiful.

Material	100% polyester fiber
Shape	Hexagon
Size	46.4*40.4cm
Thickness	1.5cm
Function	Environmentally friendly sound-insulating material

Highly decorative

# QUICK AND EASY INSTALLATION

1. Keep the surface clean and operate in a dry, oil-free condition

2. Please shake well before use to achieve better results

3. Spray evenly from 20-30cm away from the bonding surface

4. Invert the sprayer irrigation after use and spray downward for about 2-3 seconds to clean the residual glue and avoid clogging of the spray head

## FIRE RESISTANT 3D FIBRE

Fire resistant 3D fibre acoustic panels is easy to work with, easy to maintain and a wide range of colours

# THE 3D POLYESTER

The 3D polyester fiberboard is made of polyester fiber by high-tech hot pressing. It made in the shape of cocoon cotton to achieve density diversity and ensure ventilation. The highest sound absorption coefficient in the noise range of 125~4000HZ can reach 0.9 or more, and it has good performance in the middle and high frequency range.

# ACOUSTIC DECORATIVE TREATMENT IS NOT THAT DIFFICULT

# MEETING DIVERSE ACOUSTIC AND DECORATIVE NEEDS

## Company Profile

---

# About Us

Magic Cube (MQ) Acoustics is a professional acoustic solution provider, integrating acoustic material manufacturing, architectural acoustical environment construction and industrial noise control. We are committed to the combination of Acoustics & Aesthetic, to offering our clients the best acoustic solution with high quality acoustic material.

In order to meet the higher needs of customers, we has introduced advanced production equipment which has fully guaranteed product quality and technology. After 5 years of rapid development, we has an annual output of more than 500,000 square meters of various acoustic materials.

## FAQ

1. Can I get free samples and how long does it take to produce samples?

If the samples you need are in our stock, they will be provided to you for free. Customized samples usually take about a week to produce.

## **2. Do you accept OEM or ODM order?**

Yes, as a manufacturer, we can produce acoustic materials based on your samples or drawings. Please do not hesitate to contact us.

## **3. How to get an accurate quotation?**

Can provide us with detailed product information, such as pattern, core material, surface, etc. If you have CAD or other drawings, don't hesitate to send it to us.

## **4. Payment terms**

T/T 30% deposit before production, 70% balanced payment before delivery.
