

Eco-Friendly Polyester Fiber Ceiling Acoustic Panel for Acoustic Solutions in Studios PET Board

Our Product Introduction

for more products please visit us on acousticpanelwalls.com

Basic Information

- Place of Origin: China
- Brand Name: MQ Acoustics
- Certification: CE, ASTM, ISO
- Model Number: PET Acoustic Ceiling Panels
- Minimum Order Quantity: 100pcs
- Packaging Details: Carton Box, Pallet
- Delivery Time: 7-14 working day
- Payment Terms: T/T

Product Specification

- Material: 100% Polyester Fiber
- Length: 1200mm/2400mm
- Panel Height: 200mm/250mm
- Thickness: 9/12/24mm/customized
- Color: More Than 48 Colors To Be Chosen
- Application: Office Building, Office, Meeting Room, Multi-Function Hall, Etc.
- Origin: China
- NRC: 0.80-0.85
- Transport Package: Carton Box & Pallet
- Function: Interior Decoration And Sound Absorbing
- Warranty: 1 Year
- Highlight: Eco-friendly polyester acoustic ceiling panel, Studio PET acoustic ceiling board, Ceiling acoustic panel with PET fiber

Products Description

At their core, these panels are engineered from 100% post-consumer recycled polyester fibers—primarily derived from recycled plastic bottles (PET). Through a sophisticated thermal-bonding process, these fibers are transformed into dense, non-woven felt boards that are exceptionally effective at absorbing sound waves.

Product Name	Polyester Fiber Acoustic Panel
Application	Ceilings Panel
Material	100% Polyester Fiber
Thickness	9mm / 12mm / 24mm / Customized
Color	more than 48 colors options (customizable upon request)
Fire Rating	Class B
Eco-Certification	Meets E1 environmental standards, formaldehyde-free, odorless

Superior Acoustic Performance

High NRC (Noise Reduction Coefficient): Effectively absorbs mid-to-high-frequency sounds, such as human speech, telephone rings, and keyboard clatter, drastically reducing reverberation and echo.

Enhanced Speech Clarity: Creates quieter, more intelligible spaces, which is crucial for offices, classrooms, and conference rooms.

Health and Safety

Non-Irritating: The panels are soft to the touch and can be handled without the itching or respiratory concerns associated with fiberglass.

Unmatched Design Versatility

Customizable Colors & Finishes: Available in a vast spectrum of colors to match any brand palette or interior design scheme.

Variety of Shapes & Sizes: From standard rectangles and squares to custom curves, triangles, and even 3D shapes.

Printability: Many panels can be digitally printed with high-resolution images, logos, artwork, or patterns, turning functional walls into stunning feature elements.

Multiple Installation Options: They can be easily installed with adhesive, impaled on a hidden grid system, or suspended as baffles or clouds from the ceiling.

Product Features

1/ Excellent sound absorbing performance:

The NRC can be 0.85 to 0.94

2/ Easy installation

To cut by knife and easy to install by glue or nail

3/ Good physical stability

Can meet ASTM E84-2016

4/ Various of Color for Option

Can easily realize the designer's inspiration

Applications

Installation Methods

Direct Adhesion: Eco-friendly glue for flat walls/ceilings.
Suspension Hooks: Hanging panels .
Modular Snap-in: Easy assembly/disassembly for maintenance.

About Us

Magic Cube (MQ) Acoustics is a professional acoustic solution provider, integrating acoustic material manufacturing, architectural acoustical environment construction and industrial noise control. We are committed to the combination of Acoustics & Aesthetic, to offering our clients the best acoustic solution with high quality acoustic material.

In order to meet the higher needs of customers, we has introduced advanced production equipment which has fully guaranteed product quality and technology. After 5 years of rapid development, we has an annual output of more than 500,000 square meters of various acoustic materials.

FAQ

1. Can I get free samples and how long does it take to produce samples?

If the samples you need are in our stock, they will be provided to you free of charge. Customized samples usually take about a week to produce.

2. Do you accept OEM or ODM order?

Yes, as a manufacturer, we can produce acoustic materials based on your samples or drawings. Please do not hesitate to contact us.

3. How to get an accurate quotation?

Can provide us with detailed product information, such as pattern, core material, surface, etc. If you have CAD or other drawings,

don't hesitate to send it to us.

4. Payment terms

T/T 30% deposit before production, 70% balanced payment before delivery.

For more information, please feel free to contact us.
