Product Description

Products Introduction

The Acoustic Wood Slat Wall Covering stands as a high-end sound-dampening wall panel tailored specifically for conference rooms. It merges outstanding noise-insulating capabilities with a sleek, minimalist style, successfully boosting both the acoustic quality of the space and its overall visual allure. Constructed from top-tier black wood materials and boasting a one-of-a-kind slatted structure, this wall panel blends functionality and elegance, rendering it a perfect option for commercial areas, meeting rooms, workplaces, and beyond.

Name	Wood Slat Acoustic Panel
Basic Material	polyester fiber acoustic panel+MDF pane
Finish	wood veneer/ PVC/ melamine
Size	60*240/270/300cm
Color	oak / walnut / teak / black / gray oak
Features	sound absorption, light weight, easy installation

Key Features:

- **Outstanding Noise-Insulating Capabilities**

This wall panel employs cutting-edge acoustic techniques to efficiently absorb and block unwanted sounds, lessening sound reverberations and echoes. It guarantees smooth, undisturbed dialogue during meetings by decreasing both internal and external noise disruptions.

- **Top-Tier Wood Construction**

Crafted from high-grade wood, the panel showcases a meticulously finished surface that highlights natural wood patterns and a soft matte texture, radiating a sense of subtle sophistication. Its classic black design harmonizes with modern office interiors, enhancing the overall atmosphere of the space.

- **Slatted Panel Structure**

The distinctive slatted structure not only adds depth and dimension to the wall but also improves acoustic functionality. The slats aid in scattering sound waves, reducing focused sound reflections while infusing the room with a hint of modern artistic flair.

Installation Steps

1 Measure the size of the installation location

2 Measure panel size

3 Cut to appropriate size

4 Distribute the glue evenly on the back of the panel

5 Use screws to install the sound-absorbing panels on the wall

6 Complete the installation

Company Profile

About the Company

Magic Cube(MQ)Acoustics is a professional acoustic solution provider, integrating acoustic material manufacturing, architectural acoustical environment construction and industrial noise control. We are committed to the combination of Acoustics&Aesthetic, to offering our clients the best acoustic solution with high quality acoustic material.

The exhibition hall

In order to meet the higher needs of customers, we have introduced advanced production equipment which has fully guaranteed product quality and technology. After 5 years of rapid development, we have an annual output of more than 500,000 square meters of various acoustic materials.

Team Activity

Package&Transport

1. Can I get free samples and how long does it take to produce samples?

If the samples you need are in our stock, they will be provided to you free of charge. Customized samples usually take about a week to produce.

2. Do you accept OEM or ODM order?

Yes, as a manufacturer, we can produce acoustic materials based on your samples or drawings. Please do not hesitate to contact us.

3. How to get an accurate quotation?

Can provide us with detailed product information, such as pattern, core material, surface, etc. If you have CAD or other drawings.

4. Payment terms

T/T 30% deposit before production, 70% balanced payment before delivery.

For more information, please feel free to contact us.
