

Eco-friendly and Sound Absorption Polyester Fiber Acoustic Ceiling Panel for Interior Decoration

Our Product Introduction

for more products please visit us on acousticpanelwalls.com

Basic Information

- Place of Origin: China
- Brand Name: MQ Acoustics
- Certification: CE, ASTM, ISO
- Model Number: PET Acoustic Ceiling Panels
- Minimum Order Quantity: 100pcs
- Packaging Details: Carton Box, Pallet
- Delivery Time: 7-14 working day
- Payment Terms: T/T

Product Specification

- Material: 100% Polyester Fiber
- Length: 1200mm/2400mm/customized
- Panel Height: 200mm/250mm/customized
- Thickness: 9/12/15/24mm/customized
- Color: More Than 48 Colors To Be Chosen
- Application: Office Building, Office, Meeting Room, Multi-Function Hall, Etc.
- Origin: China
- NRC: 0.80-0.85
- Transport Package: Carton Box & Pallet
- Function: Interior Decoration And Sound Absorbing
- Warranty: 1 Year

Products Description

Crafted for the modern built environment, our Eco-friendly Polyester Fiber Acoustic Ceiling Panels represent the perfect synergy of sustainable design and high-performance acoustics.

Product Name	Polyester Fiber Acoustic Panel
Application	Ceilings Panel
Material	100% Polyester Fiber
Thickness	9mm / 12mm / 24mm / Customized
Color	more than 48 colors options (customizable upon request)
Fire Rating	Class B
Eco-Certification	Meets E1 environmental standards, formaldehyde-free, odorless

The core function of these panels is exceptional sound absorption, transforming noisy and reverberant spaces into comfortable, acoustically balanced environments. The porous, non-woven structure of the polyester fiber effectively traps and dissipates sound energy, significantly reducing echo, background noise, and improving speech clarity.

Beyond their acoustic prowess, these panels are a designer's delight. They are available in a wide array of contemporary colors, textures, and custom shapes to complement any interior aesthetic—from minimalist offices and educational institutions to bustling restaurants and creative studios.

Installation and maintenance are remarkably straightforward. The panels are lightweight yet durable, allowing for easy handling and fitting into various grid systems or direct adhesion to walls and ceilings. Their surface is resistant to moisture and stains, and most marks can be easily wiped clean, ensuring long-lasting beauty with minimal effort.

Committed to health and sustainability, these panels are formaldehyde-free and have low VOC emissions, contributing to superior indoor air quality. By choosing this product, you are not only investing in acoustic comfort but also making a responsible choice for the planet, promoting a circular economy through the use of recycled materials.

Product Features

1/ Excellent sound absorbing performance:

The NRC can be 0.85 to 0.94

2/ Easy installation

To cut by knife and easy to install by glue or nail

3/ Good physical stability

Can meet ASTM E84-2016

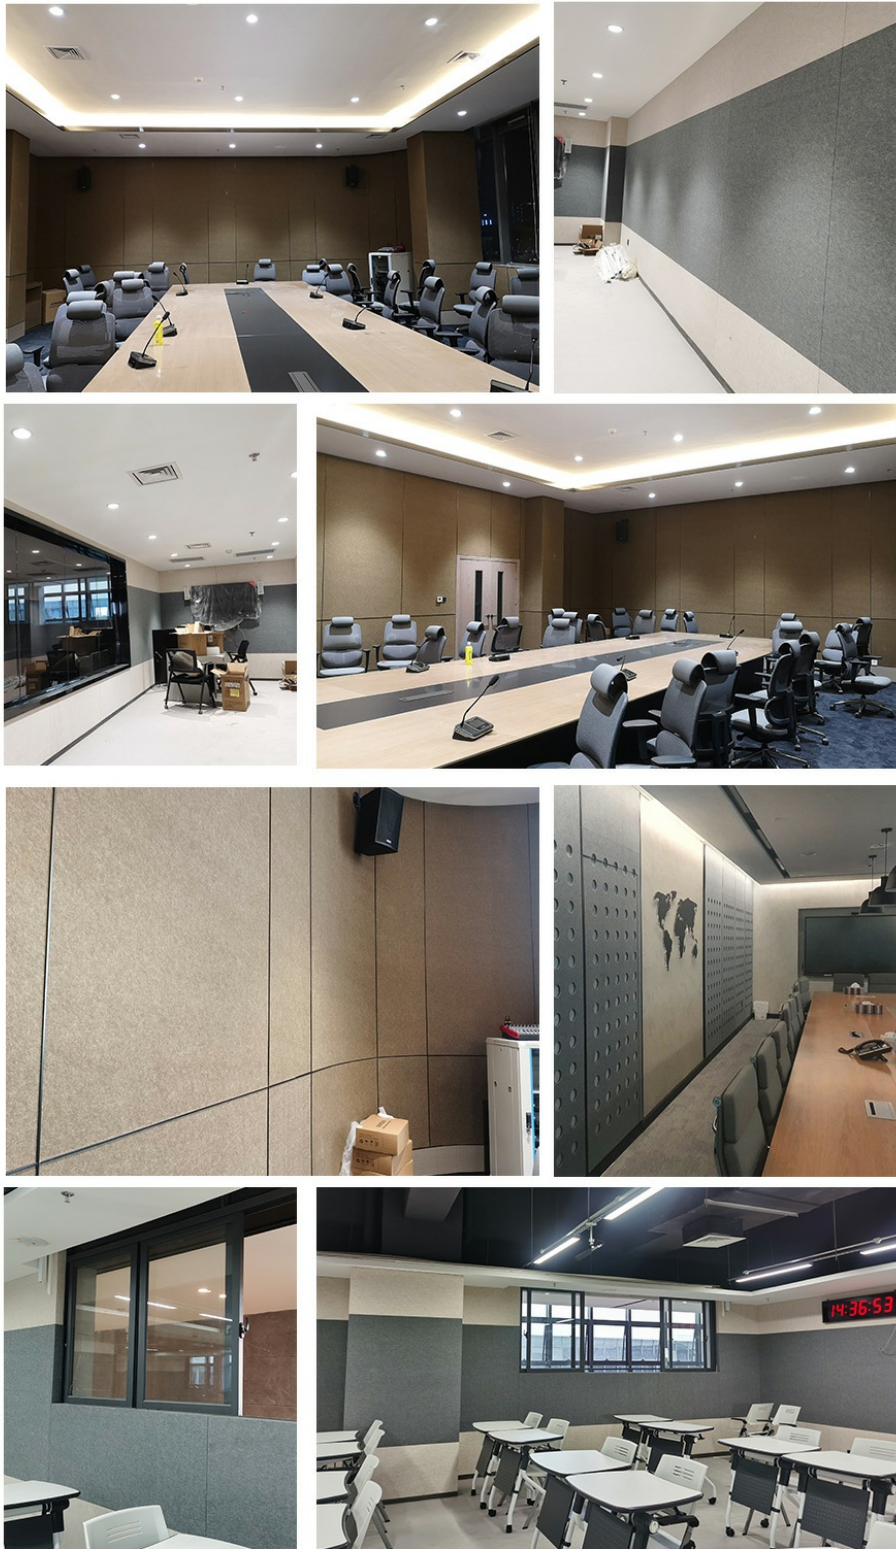

4/ Various of Color for Option

Can easily realize the designer's inspiration

Applications

Installation Methods

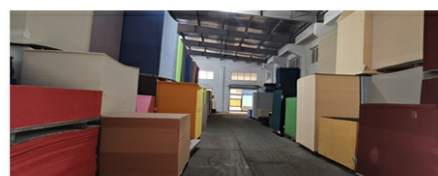

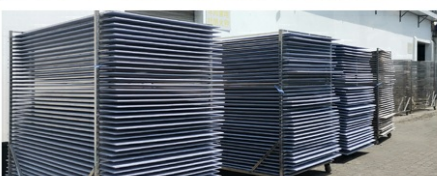

Direct Adhesion: Eco-friendly glue for flat walls/ceilings.
Suspension Hooks: Hanging panels .
Modular Snap-in: Easy assembly/disassembly for maintenance.

About Us

Magic Cube (MQ) Acoustics is a professional acoustic solution provider, integrating acoustic material manufacturing, architectural acoustical environment construction and industrial noise control. We are committed to the combination of Acoustics & Aesthetic, to offering our clients the best acoustic solution with high quality acoustic material.

In order to meet the higher needs of customers, we has introduced advanced production equipment which has fully guaranteed product quality and technology. After 5 years of rapid development, we has an annual output of more than 500,000 square meters of various acoustic materials.

FAQ

1. Can I get free samples and how long does it take to produce samples?

If the samples you need are in our stock, they will be provided to you free of charge. Customized samples usually take about a week to produce.

2. Do you accept OEM or ODM order?

Yes, as a manufacturer, we can produce acoustic materials based on your samples or drawings. Please do not hesitate to contact us.

3. How to get an accurate quotation?

Can provide us with detailed product information, such as pattern, core material, surface, etc. If you have CAD or other drawings,

don't hesitate to send it to us.

4. Payment terms

T/T 30% deposit before production, 70% balanced payment before delivery.

For more information, please feel free to contact us.
