Product Description

Products Introduction

The Acoustic Wood Slat Wall Covering is a premium sound-dampening wall panel tailored specifically for conference rooms. It merges superior sound-blocking performance with a modern, understated aesthetic, effectively boosting both the acoustic surroundings and the overall visual allure of the area. Constructed from high-quality black wood materials and featuring a one-of-a-kind slatted layout, this wall panel is both practical and stylish, making it an excellent choice for business premises, conference halls, workplaces, and beyond.

Name	Wood Slat Acoustic Panel
Basic Material	polyester fiber acoustic panel+MDF pane
Finish	wood veneer/ PVC/ melamine
Size	60*240/270/300cm
Color	oak / walnut / tesk / black / gray oak
Features	sound absorption, light weight, easy installation

Key Features:

- Superior Sound-Blocking Performance

This wall panel utilizes advanced acoustic methods to effectively absorb and obstruct noise, lowering sound reflections and echoes. It ensures clear, undisturbed dialogue during meetings by minimizing both internal and external noise disturbances.

- High-Quality Wood Layout

Made from premium black wood, the panel has a meticulously finished surface that displays natural wood grains and a soft matte texture, emanating a sense of understated luxury. Its timeless black design harmonizes with modern office decor, elevating the overall mood of the space.

- Slatted Panel Layout

The one-of-a-kind slatted layout not only adds depth and dimension to the wall but also enhances acoustic efficiency. The slats aid in dispersing sound waves, reducing concentrated sound reflections while adding a touch of contemporary artistry to the room.

3 Cut to appropriate size

4 Distribute the glue evenly on the back of the panel

5 Use screws to install the sound-absorbing panels on the wall

6 Complete the installation

Company Profile

About the Company

Magic Cube(MQ)Acoustics is a professional acoustic solution provider, integrating acoustic material manufacturing, architectural acoustical environment construction and industrial noise control. We are committed to the combination of Acoustics&Aesthetic, to offering our clients the best acoustic solution with high quality acoustic material.

The exhibition hall

In order to meet the higher needs of customers, we have introduced advanced production equipment which has fully guaranteed product quality and technology. After 5 years of rapid development, we have an annual output of more than 500,000 square meters of various acoustic materials.

Team Activity

Package&Transport

1. Can I get free samples and how long does it take to produce samples?

If the samples you need are in our stock, they will be provided to you free of charge. Customized samples usually take about a week to produce.

2. Do you accept OEM or ODM order?

Yes, as a manufacturer, we can produce acoustic materials based on your samples or drawings. Please do not hesitate to contact us.

3. How to get an accurate quotation?

Can provide us with detailed product information, such as pattern, core material, surface, etc. If you have CAD or other drawings.

4. Payment terms

T/T 30% deposit before production, 70% balanced payment before delivery.

For more information, please feel free to contact us.
