Product Description

Wooden Slat Acoustic Wall Panels

The Acoustic Wood Slat Wall Panel is a premium sound-dampening wall covering engineered specifically for conference rooms. It combines excellent noise-absorbing capabilities with a sleek, minimalist style, successfully upgrading both the acoustic surroundings of the area and its overall visual charm. Manufactured from top-tier black wood materials and featuring an exclusive slatted structure, this wall panel is both functional and elegant, rendering it an ideal option for business spaces, conference halls, offices, and more.

Product Specifications

Name	Wood Slat Acoustic Panel
Basic Material	Polyester fiber acoustic panel + MDF pane
Finish	Wood veneer / PVC / melamine
Size	60*240/270/300cm
Color	Oak / walnut / tesk / black / gray oak
Features	Sound absorption, light weight, easy installation

Key Features:

- **Excellent Noise-Absorbing Capabilities**
This wall panel utilizes cutting-edge acoustic technologies to effectively absorb and block noise, reducing sound reflections and echoes. It guarantees smooth, uninterrupted dialogue during meetings by decreasing both internal and external noise interference.
- **Top-Tier Wood Structure**
Constructed from premium black wood, the panel has a finely polished surface that highlights natural wood patterns and a matte finish, radiating a sense of understated luxury. Its classic black design harmonizes with modern office interiors, elevating the overall ambiance of the space.
- **Exclusive Slatted Structure**
The one-of-a-kind slatted structure not only adds depth and dimension to the wall but also improves acoustic efficiency. The slats help scatter sound waves, reducing focused sound reflections while adding a hint of modern artistic flair to the room.
