

Polyester Fiber Acoustic Panel 100% polyester acoustic panel hexagon acoustic panel perforated acoustic panel

Our Product Introduction

Basic Information

- Place of Origin: Guangdong, China
- Brand Name: MQ Acoustics
- Certification: CE
- Model Number: fiber acoustic panels
- Minimum Order Quantity: 100pcs
- Price: 4.29usd - 5usd
- Packaging Details: Carton Box, Pallet
- Delivery Time: 15 work day
- Payment Terms: T/T, L/C, D/A, D/P, Western Union, MoneyGram
- Supply Ability: 2000

Product Specification

- Material: 100% Polyester Fiber
- Thickness: 9/12/24mm/customized
- Density: 1200g-3700g/
- Application: Office Building, Office, Meeting Room, Multi-Function Hall, Etc.
- Origin: China
- NRC: 0.80-0.85
- Warranty: 1 Year
- Standard Size: 1220*2440mm/1200*600mm/customized
- Color: More Than 48 Colors To Be Chosen
- Highlight: polyester fiber acoustic panel with warranty, hexagon acoustic panel for soundproofing, perforated acoustic panel for home theater

Product Description

Polyester Fiber Acoustic Panel

Product Specifications

Product Name	Polyester Fiber Acoustic Panel
Application	Walls, Ceilings
Material	100% Polyester Fiber
Thickness	9mm / 12mm / 24mm
Color	More than 48 colors options (customizable upon request)
Size	1220*2440mm / 1200*600mm (custom sizes available)
Fire Rating	Class B
Eco-Certification	Meets E1 environmental standards, formaldehyde-free, odorless

Advanced Acoustic Functionality Assortment

By utilizing advanced polyester fiber composites, our panels provide steady 0.85 NRC performance via advanced material engineering.

Technical Edge

Nano-structured surface optimizes 0.90cm sound dispersion

Precision-engineered molds attain ±0.12mm dimensional exactness

Fine-tuned 12kg/m³ density secures excellent acoustic attenuation

Architectural Adaptation

TexturePure printing replicates genuine material looks

Modular dimensions ranging from 24x48 to 96x48 inches

Industrial-grade structures in 28/38/58mm specifications

Industry validated with performance validation docs

The fabrication system ensures complete material homogeneity for specialized applications. Sustaining 22.1 lbs/sq ft, these panels provide exceptional stability in tough environmental conditions.

Product Features

1/ Excellent sound absorbing performance:
The NRC can be 0.85 to 0.94

2/ Easy installation
To cut by knife and easy to install by glue or nail

3/ Good physical stability
Can meet ASTM E84-2016

4/ Various of Color for Option
Can easily realize the designer's inspiration

Applications

Installation Methods

Direct Adhesion: Eco-friendly glue for flat walls/ceilings

Suspension Hooks: Hanging panels

Company Profile

About Us

Magic Cube (MQ) Acoustics is a professional acoustic solution provider, integrating acoustic material manufacturing, architectural acoustical environment construction and industrial noise control. We are committed to the combination of Acoustics & Aesthetic, to offering our clients the best acoustic solution with high quality acoustic material.

In order to meet the higher needs of customers, we has introduced advanced production equipment which has fully guaranteed product quality and technology. After 5 years of rapid development, we has an annual output of more than 500,000 square meters of various acoustic materials.

Frequently Asked Questions

Can I get free samples and how long does it take to produce samples?

If the samples you need are in our stock, they will be provided to you free of charge. Customized samples usually take about a week to produce.

Do you accept OEM or ODM order?

Yes, as a manufacturer, we can produce acoustic materials based on your samples or drawings. Please do not hesitate to contact us.

How to get an accurate quotation?

Can provide us with detailed product information, such as pattern, core material, surface, etc. If you have CAD or other drawings, don't hesitate to send it to us.

Payment terms

T/T 30% deposit before production, 70% balanced payment before delivery.

For more information, please feel free to contact us.
