

Eco Friendly Sound-Absorbing PET Acoustic Ceiling Tiles for Meeting Room

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: MQ Acoustics
- Certification: CE, ASTM, ISO
- Model Number: PET Acoustic Ceiling Panels
- Minimum Order Quantity: 100pcs
- Packaging Details: Carton Box, Pallet
- Delivery Time: 7-14 working day
- Payment Terms: T/T

Product Specification

- Material: 100% Polyester Fiber
- Length: 1200mm/2400mm/customized
- Panel Height: 200mm/250mm/customized
- Thickness: 9/12/15/24mm/customized
- Color: More Than 48 Colors To Be Chosen
- Application: Office Building, Office, Meeting Room, Multi-Function Hall, Etc.
- Origin: China
- NRC: 0.80-0.85
- Transport Package: Carton Box & Pallet
- Function: Interior Decoration And Sound Absorbing
- Warranty: 1 Year

Product Description

Products Description

Tired of echo, noise distraction, and poor speech intelligibility in your meeting rooms? Our PET Acoustic Ceiling Tiles are the intelligent, sustainable answer. Engineered from 100% recycled plastic bottles, these tiles deliver exceptional sound absorption to create a more productive, focused, and comfortable environment.

Product Name	Polyester Fiber Acoustic Panel
Application	Ceilings Panel
Material	100% Polyester Fiber
Thickness	9mm / 12mm / 24mm / Customized
Color	more than 48 colors options (customizable upon request)
Fire Rating	Class B
Eco-Certification	Meets E1 environmental standards, formaldehyde-free, odorless

Key Features & Benefits:

Superior Sound Absorption (NRC up to 0.9)

Say goodbye to disruptive echoes and background noise. Our tiles are scientifically designed to absorb mid-to-high-frequency sounds, drastically reducing reverberation time. This ensures crystal-clear communication, enhanced concentration, and absolute privacy during confidential discussions.

Stunning Aesthetic Design

Elevate your space with a modern, textured finish that complements any interior design—from minimalist and corporate to creative and industrial. Available in a range of colors and sizes, our tiles add a sophisticated visual element to your ceiling, turning a functional necessity into a design feature.

Durable & Moisture-Resistant

Unlike traditional mineral fiber or fabric panels, PET tiles are inherently resistant to moisture and humidity. They will not sag, warp, or support mold and mildew growth, ensuring long-lasting performance and a consistently beautiful appearance for years to come.

Easy & Safe Installation

Lightweight and easy to handle, our tiles are designed for a simple installation process in standard suspended grid (T-bar) ceilings. They are non-fibrous and non-irritating, making installation and future maintenance clean and safe, with no harmful particles released into the air.

Product Features

1/ Excellent sound absorbing performance:

The NRC can be 0.85 to 0.94

2/ Easy installation

To cut by knife and easy to install by glue or nail

3/ Good physical stability

Can meet ASTM E84-2016

4/ Various of Color for Option

Can easily realize the designer's inspiration

Applications

Installation Methods

Direct Adhesion: Eco-friendly glue for flat walls/ceilings.
Suspension Hooks: Hanging panels .
Modular Snap-in: Easy assembly/disassembly for maintenance.

About Us

Magic Cube (MQ) Acoustics is a professional acoustic solution provider, integrating acoustic material manufacturing, architectural acoustical environment construction and industrial noise control. We are committed to the combination of Acoustics & Aesthetic, to offering our clients the best acoustic solution with high quality acoustic material.

In order to meet the higher needs of customers, we has introduced advanced production equipment which has fully guaranteed product quality and technology. After 5 years of rapid development, we has an annual output of more than 500,000 square meters of various acoustic materials.

FAQ

1. Can I get free samples and how long does it take to produce samples?

If the samples you need are in our stock, they will be provided to you free of charge. Customized samples usually take about a week to produce.

2. Do you accept OEM or ODM order?

Yes, as a manufacturer, we can produce acoustic materials based on your samples or drawings. Please do not hesitate to contact us.

3. How to get an accurate quotation?

Can provide us with detailed product information, such as pattern, core material, surface, etc. If you have CAD or other drawings,

don't hesitate to send it to us.

4. Payment terms

T/T 30% deposit before production, 70% balanced payment before delivery.

For more information, please feel free to contact us.
