

## Polyester Fiber Acoustic Panel best acoustic panels for soundproofing acoustic wall panels for offices

### Our Product Introduction

#### Basic Information

- Place of Origin: Guangdong, China
- Brand Name: MQ Acoustics
- Certification: CE
- Model Number: fiber acoustic panels
- Minimum Order Quantity: 100pcs
- Price: 4.29usd - 5usd
- Packaging Details: Carton Box, Pallet
- Delivery Time: 15 work day
- Payment Terms: T/T, L/C, D/A, D/P, Western Union, MoneyGram
- Supply Ability: 2000

#### Product Specification

- Material: 100% Polyester Fiber
- Thickness: 9/12/24mm/customized
- Density: 1200g-3700g/
- Application: Office Building, Office, Meeting Room, Multi-Function Hall, Etc.
- Origin: China
- NRC: 0.80-0.85
- Warranty: 1 Year
- Standard Size: 1220\*2440mm/1200\*600mm/customized
- Color: More Than 48 Colors To Be Chosen

Product Description

Polyester Fiber Acoustic Panel

Product Specifications

|                   |                                                               |
|-------------------|---------------------------------------------------------------|
| Product Name      | Polyester Fiber Acoustic Panel                                |
| Application       | Walls, Ceilings                                               |
| Material          | 100% Polyester Fiber                                          |
| Thickness         | 9mm / 12mm / 24mm                                             |
| Color             | More than 48 colors options (customizable upon request)       |
| Size              | 1220*2440mm / 1200*600mm (custom sizes available)             |
| Fire Rating       | Class B                                                       |
| Eco-Certification | Meets E1 environmental standards, formaldehyde-free, odorless |

Superior Acoustic Performance Set

By employing high-grade polyester fiber composites, our panels deliver consistent 0.85 NRC performance via state-of-the-art material engineering.

Technical Superiority

Nano-structured surface maximizes 0.90cm sound diffusion

Precision-designed molds achieve ±0.12mm dimensional precision

Optimized 12kg/m³ density secures superior acoustic attenuation

Architectural Compatibility

TexturePure printing captures genuine material visuals

Modular dimensions spanning 24x48 to 96x48 inches

Professional-standard constructions in 28/38/58mm specifications

Industry validated with performance validation docs

The fabrication system ensures complete material uniformity for specialized uses. Maintaining 22.1 lbs/sq ft, these panels provide exceptional stability in tough environmental scenarios.

# Product Features

**1/ Excellent sound absorbing performance:**  
The NRC can be 0.85 to 0.94

**2/ Easy installation**  
To cut by knife and easy to install by glue or nail

**3/ Good physical stability**  
Can meet ASTM E84-2016

**4/ Various of Color for Option**  
Can easily realize the designer's inspiration

# Applications

## Installation Methods

Direct Adhesion: Eco-friendly glue for flat walls/ceilings

Suspension Hooks: Hanging panels

## Company Profile

# About Us

Magic Cube (MQ) Acoustics is a professional acoustic solution provider, integrating acoustic material manufacturing, architectural acoustical environment construction and industrial noise control. We are committed to the combination of Acoustics & Aesthetic, to offering our clients the best acoustic solution with high quality acoustic material.

In order to meet the higher needs of customers, we has introduced advanced production equipment which has fully guaranteed product quality and technology. After 5 years of rapid development, we has an annual output of more than 500,000 square meters of various acoustic materials.

## Frequently Asked Questions

### Can I get free samples and how long does it take to produce samples?

If the samples you need are in our stock, they will be provided to you free of charge. Customized samples usually take about a week to produce.

### Do you accept OEM or ODM order?

Yes, as a manufacturer, we can produce acoustic materials based on your samples or drawings. Please do not hesitate to contact us.

### How to get an accurate quotation?

Can provide us with detailed product information, such as pattern, core material, surface, etc. If you have CAD or other drawings, don't hesitate to send it to us.

### Payment terms

T/T 30% deposit before production, 70% balanced payment before delivery.

For more information, please feel free to contact us.
