Product Description

Wooden Slat Acoustic Wall Panels

The Sound-Dampening Wood Slat Wall Covering is a high-end acoustic wall panel engineered specifically for conference rooms. It combines outstanding sound-insulating capabilities with a sleek, understated style, successfully upgrading both the acoustic environment of the space and its overall visual charm. Fabricated from top-tier black wood materials and featuring an exclusive slatted arrangement, this wall panel blends practicality and style, rendering it an ideal option for business premises, conference halls, workplaces, and more.

Product Specifications

Name	Wood Slat Acoustic Panel
Basic Material	Polyester fiber acoustic panel + MDF pane
Finish	Wood veneer / PVC / melamine
Size	60*240/270/300cm
Color	Oak / walnut / tesk / black / gray oak
Features	Sound absorption, light weight, easy installation

Key Features:

• Outstanding Sound-Insulating Capabilities

This wall panel utilizes cutting-edge acoustic solutions to effectively absorb and block unwanted noise, lowering sound reflections and echoes. It guarantees crisp, unbroken dialogue during meetings by decreasing both internal and external noise interference.

• Top-Tier Wood Arrangement

Crafted from high-grade black wood, the panel showcases a meticulously polished surface that highlights natural wood patterns and a soft matte finish, radiating a sense of subtle sophistication. Its classic black design harmonizes with modern office interiors, elevating the overall mood of the space.

• Exclusive Slatted Arrangement

The one-of-a-kind slatted arrangement not only adds depth and dimension to the wall but also improves acoustic functionality. The slats aid in scattering sound waves, reducing focused sound reflections while adding a hint of modern artistic flair to the room.
