Product Description

Wooden Slat Acoustic Wall Panels

The Soundproof Wood Slat Wall Panel is a premium acoustic wall covering designed specifically for conference rooms. It merges superior noise-cushioning performance with a modern, minimalist aesthetic, effectively enhancing both the acoustic quality of the space and its overall visual appeal. Built from high-quality black wood materials and boasting a unique slatted setup, this wall panel combines functionality and fashion, making it a perfect choice for commercial areas, meeting rooms, offices, and beyond.

Product Specifications

Name	Wood Slat Acoustic Panel
Basic Material	Polyester fiber acoustic panel + MDF pane
Finish	Wood veneer / PVC / melamine
Size	60*240/270/300cm
Color	Oak / walnut / tesk / black / gray oak
Features	Sound absorption, light weight, easy installation

Key Features:

• Superior Noise-Cushioning Performance

This wall panel adopts advanced acoustic methods to efficiently absorb and dampen noise, lessening sound reverberations and echoes. It ensures clear, unbroken communication during meetings by minimizing both internal and external noise disturbances.

• High-Quality Wood Setup

Made from premium black wood, the panel has a carefully finished surface that displays natural wood grains and a matte texture, exuding a sense of subtle elegance. Its timeless black design complements modern office decor, enhancing the overall atmosphere of the space.

• Unique Slatted Setup

The distinctive slatted setup not only adds depth and dimension to the wall but also enhances acoustic performance. The slats assist in dispersing sound waves, reducing concentrated sound reflections while infusing the room with a touch of contemporary artistry.
