

High Density Polyester Fiber Acoustic Panel for Wall and Ceiling Sound Absorption PET Felt

Our Product Introduction

for more products please visit us on acousticpanelwalls.com

Basic Information

- Place of Origin: Guangdong, China
- Brand Name: MQ Acoustics
- Minimum Order Quantity: 100pcs
- Price: 15.9/pc 100-200 pcs
- Packaging Details: Carton Box, Pallet
- Delivery Time: 5-8 work day
- Payment Terms: T/T

Product Specification

- Product Name: Polyester Fiber Acoustic Board
- Material: 100% Polyester Fiber
- Standard Size: 1220*2440mm/customized
- Thickness: 9/12/24mm/customized
- Density: 1350g-3700gsm
- Color: More Than 48 Colors To Be Chosen
- Application: Office Building, Office, Meeting Room, Multi-Function Hall, Etc.
- Origin: China
- NRC: 0.80-0.9
- Transport Package: Carton Box & Pallet
- Function: Interior Decoration And Sound Absorbing
- Warranty: 3 Years
- Acoustic Type: Sound Absorbing Material
- Shape: Hexagon

Product Description

Product Introduction

Our Acoustic Panels are engineered from high-density recycled polyester (PET) felt, offering an exceptional solution for controlling noise and enhancing acoustic comfort in any interior space. Designed for both walls and ceilings, these panels effectively absorb unwanted sound, reduce reverberation, and create a more productive, peaceful, and aesthetically pleasing environment. They are the ideal choice for modern offices, homes, studios, and commercial settings where performance and design converge.

Product Name	Polyester Fiber Acoustic Panel
Application	Walls, Ceilings
Material	100% Polyester Fiber
Thickness	9mm / 12mm / 24mm
Color	more than 48 colors options (customizable upon request)
Size	1220*2440mm / 1200*600mm(custom sizes available)
Fire Rating	Class B
Eco-Certification	Meets E1 environmental standards, formaldehyde-free, odorless

Exceptional Sound Absorption

Benefit: Significantly reduces echo, background noise, and reverberation time. This leads to improved speech clarity, increased privacy, and enhanced focus and productivity in offices, classrooms, and open-plan areas.

Eco-Conscious & Healthy

Benefit: Made from 100% post-consumer recycled PET bottles. They are non-toxic, formaldehyde-free, and allergen-free, contributing to better indoor air quality and a healthier space for occupants. They are a safe and sustainable alternative to fiberglass or foam panels.

High-Density PET Felt Construction

Benefit: The dense, needle-punched felt structure is the key to its high acoustic performance (NRC ratings up to 0.95). This density also provides excellent durability, resistance to sagging, and a luxurious, tactile finish.

Versatile Aesthetic Appeal

Benefit: Available in a wide spectrum of modern colors and custom sizes. The seamless, fabric-wrapped appearance integrates beautifully into any interior design, from minimalist to industrial. Can be arranged in creative patterns (e.g., hexagons, clouds, vertical strips) for a feature wall or ceiling.

Product Features

1/ Excellent sound absorbing performance:

The NRC can be 0.85 to 0.94

2/ Easy installation

To cut by knife and easy to install by glue or nail

3/ Good physical stability

Can meet ASTM E84-2016

4/ Various of Color for Option

Can easily realize the designer's inspiration

Applications

Installation Methods

Direct Adhesion: Eco-friendly glue for flat walls/ceilings.
Suspension Hooks: Hanging panels .
Modular Snap-in: Easy assembly/disassembly for maintenance.

Company Profile

About Us

Magic Cube (MQ) Acoustics is a professional acoustic solution provider, integrating acoustic material manufacturing, architectural acoustical environment construction and industrial noise control. We are committed to the combination of Acoustics & Aesthetic, to offering our clients the best acoustic solution with high quality acoustic material.

In order to meet the higher needs of customers, we has introduced advanced production equipment which has fully guaranteed product quality and technology. After 5 years of rapid development, we has an annual output of more than 500,000 square meters of various acoustic materials.

FAQ

1. Can I get free samples and how long does it take to produce samples?

If the samples you need are in our stock, they will be provided to you free of charge. Customized samples usually take about a

week to produce.

2. Do you accept OEM or ODM order?

Yes, as a manufacturer, we can produce acoustic materials based on your samples or drawings. Please do not hesitate to contact us.

3. How to get an accurate quotation?

Can provide us with detailed product information, such as pattern, core material, surface, etc. If you have CAD or other drawings,

don't hesitate to send it to us.

4. Payment terms

T/T 30% deposit before production, 70% balanced payment before delivery.

For more information, please feel free to contact us.
