

Perforated Polyester Fiber Acoustic Panel Decorative Sound Absorption Wall Board

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: MQ Acoustics
- Certification: CE, ASTM, ISO
- Minimum Order Quantity: 100pcs
- Price: 15.9/pc 100-200 pcs
- Packaging Details: Carton Box, Pallet
- Delivery Time: 5-8 work day
- Payment Terms: T/T

Product Specification

- Product Name: PET Acoustic Felt
- Material: 100% Polyester Fiber
- Size: 600*600mm/600*1200mm/1220*2440mm/cus
- Thickness: 9/12/15/24mm/customized
- Density: 1350g-4000gsm
- Color: More Than 48 Colors To Be Chosen
- Application: Office Building, Office, Meeting Room, Multi-Function Hall, Etc.
- Origin: China
- NRC: 0.80-0.9
- Transport Package: Carton Box & Pallet
- Function: Interior Decoration And Sound Absorbing
- Warranty: 3 Years
- Acoustic Type: Sound Absorbing Material
- Installation Method: Adhesive, Suspended, Or Direct Mount

Product Introduction

A perforated polyester fiber acoustic panel is a lightweight, versatile sound-absorbing solution made from densely packed polyester fibers, typically from recycled materials. Its surface features precisely spaced micro-perforations that allow sound waves to penetrate the panel, where they are dissipated as heat energy through friction within the fiber matrix.

Product Name	Polyester Fiber Acoustic Panel
Application	Walls, Ceilings
Material	100% Polyester Fiber
Thickness	9mm / 12mm / 24mm
Color	more than 48 colors options (customizable upon request)
Size	1220*2440mm / 1200*600mm(custom sizes available)
Fire Rating	Class B
Eco-Certification	Meets E1 environmental standards, formaldehyde-free, odorless

Key Features & Benefits:

- Effective Sound Absorption: Ideal for reducing reverberation, echo, and overall noise levels in indoor spaces (NRC values often range from 0.70 to 0.95).
- Eco-Friendly & Safe: Often made from recycled PET bottles; is formaldehyde-free and non-irritating.
- Lightweight & Easy to Install: Significantly lighter than mineral wool or wood panels, facilitating simple mounting with adhesives or mechanical fixings.
- Design Flexibility: Available in various thicknesses, sizes, colors, and custom prints. Can be easily cut or shaped for creative designs.

Product Features

1/ **Excellent sound absorbing performance:**
The NRC can be 0.85 to 0.94

2/ **Easy installation**
To cut by knife and easy to install by glue or nail

3/ **Good physical stability**
Can meet ASTM E84-2016

4/ **Various of Color for Option**
Can easily realize the designer's inspiration

Company Profile

About Us

Magic Cube (MQ) Acoustics is a professional acoustic solution provider, integrating acoustic material manufacturing, architectural acoustical environment construction and industrial noise control. We are committed to the combination of Acoustics & Aesthetic, to offering our clients the best acoustic solution with high quality acoustic material.

In order to meet the higher needs of customers, we has introduced advanced production equipment which has fully guaranteed product quality and technology. After 5 years of rapid development, we has an annual output of more than 500,000 square meters of

various acoustic materials.

FAQ

1. Can I get free samples and how long does it take to produce samples?

If the samples you need are in our stock, they will be provided to you free of charge. Customized samples usually take about a

week to produce.

2. Do you accept OEM or ODM order?

Yes, as a manufacturer, we can produce acoustic materials based on your samples or drawings. Please do not hesitate to contact us.

3. How to get an accurate quotation?

Can provide us with detailed product information, such as pattern, core material, surface, etc. If you have CAD or other drawings,

don't hesitate to send it to us.

4. Payment terms

T/T 30% deposit before production, 70% balanced payment before delivery.

For more information, please feel free to contact us.
